

DEEP EAST OAKLAND COMMUNITY MAP

The Deep East Oakland Community Map is grounded in the idea of **VILLAGE CONNECTIVITY**.

Villages are the cornerstone of growth throughout history. That basis of urban growth is also the source of re-generation and adaptivity.

Our Community Map is about harnessing today's strengths in preparation of a healthy future. Two principles guide the map:

- 1. Children First
- 2. Collective Pride

These principles define the centers of activities which allow for community gathering, play, art, mobility and access for seniors and physical abilities.

The map defines how we plan for a vibrant, sustainable, healthy and connected community.

- Village Center
- Education (Schools, Library etc)
- Bike Path (Preferred)
- Main Streets
- Village Street
