Project: US 101: Big Creek Bridge  
Subject: **Thanks for a great project**

David,

Jaime and I want to thank Conway Construction and your crew for the great project at Big Creek Bridge. The informal partnering session helped get the project off to a good start and we had honest and open communications through out the life the project. The traffic control was always in compliance and I did not receive a single complaint during the course of the project. The submittal process went well and the on-site workmanship was very good. Your crews responded to ODOT's concerns and directions without hesitation and we are very proud of the final project. Conway complied with all the environmental specifications and promptly addressed any concerns that were raised. The project documentation was well organized and the project closed out very quickly.

Please pass on our appreciation to everyone involved in the project. We look forward to working with you again in the future.

Ray Cranston

Project Manager

Jaime Viramontes

Assistant Project Manager
