Science At The Zoo

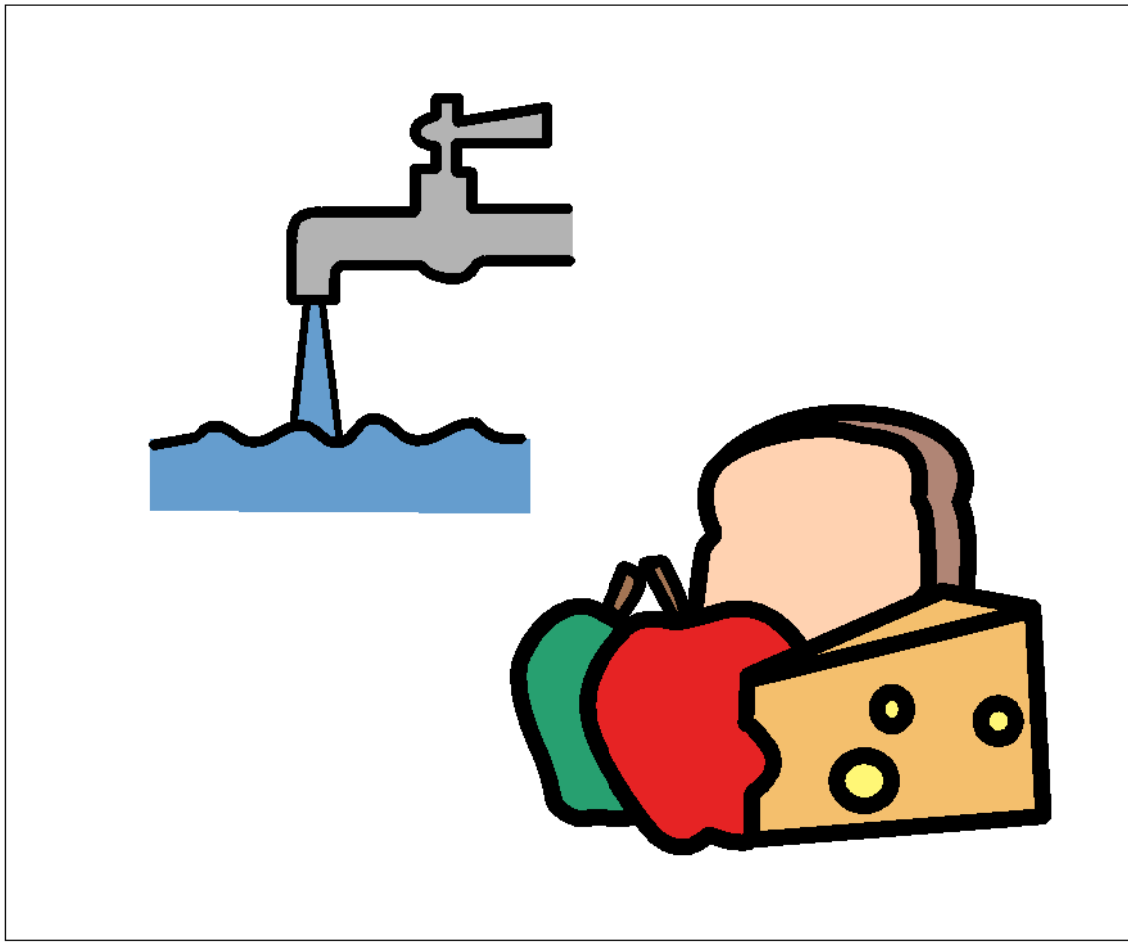

The zookeeper tells me about the

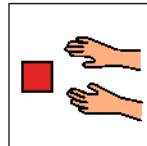

animals at the zoo.

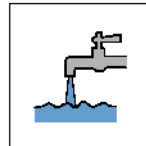

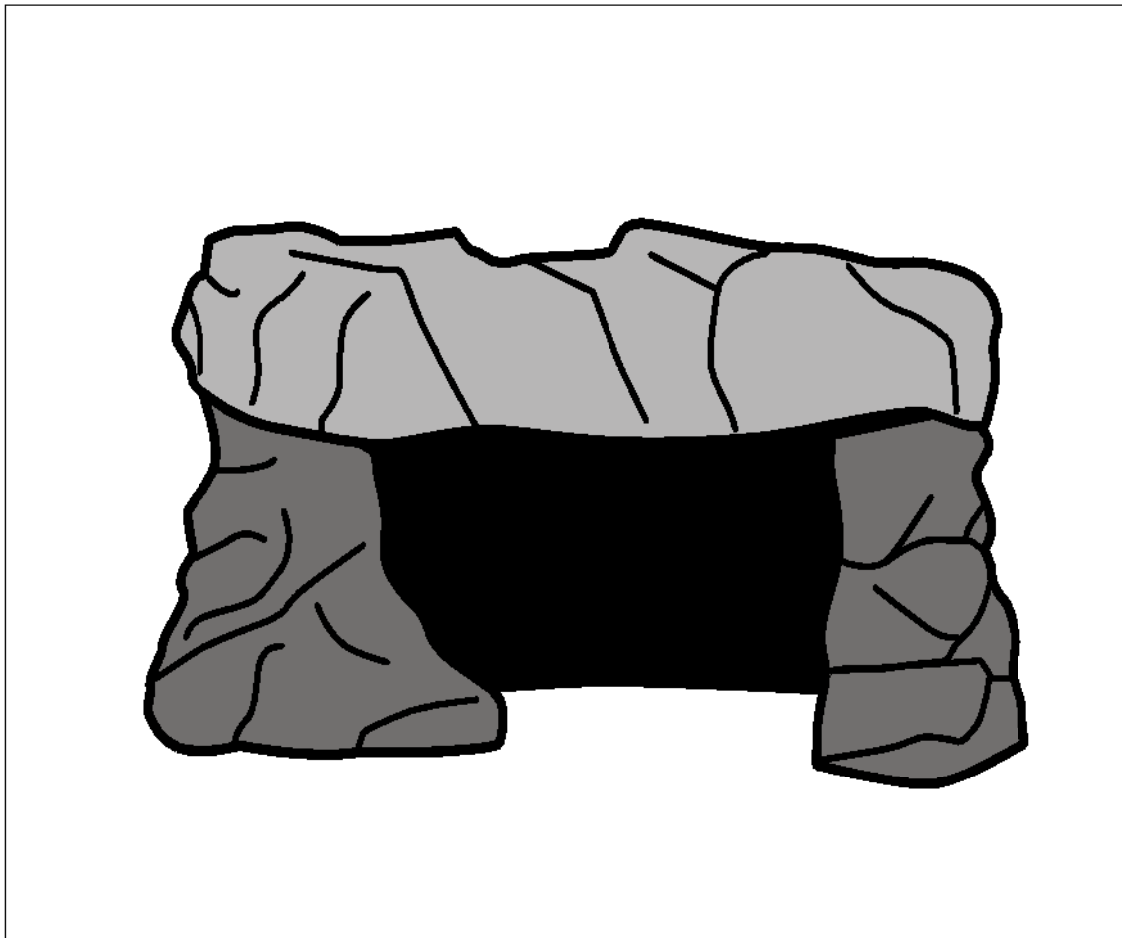

At the zoo, animals get food and water.

@

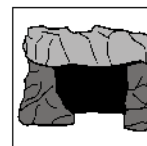

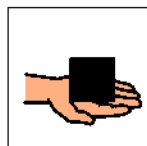

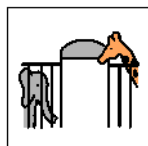

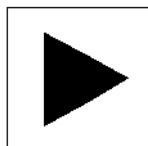

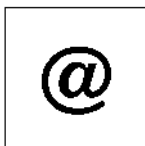

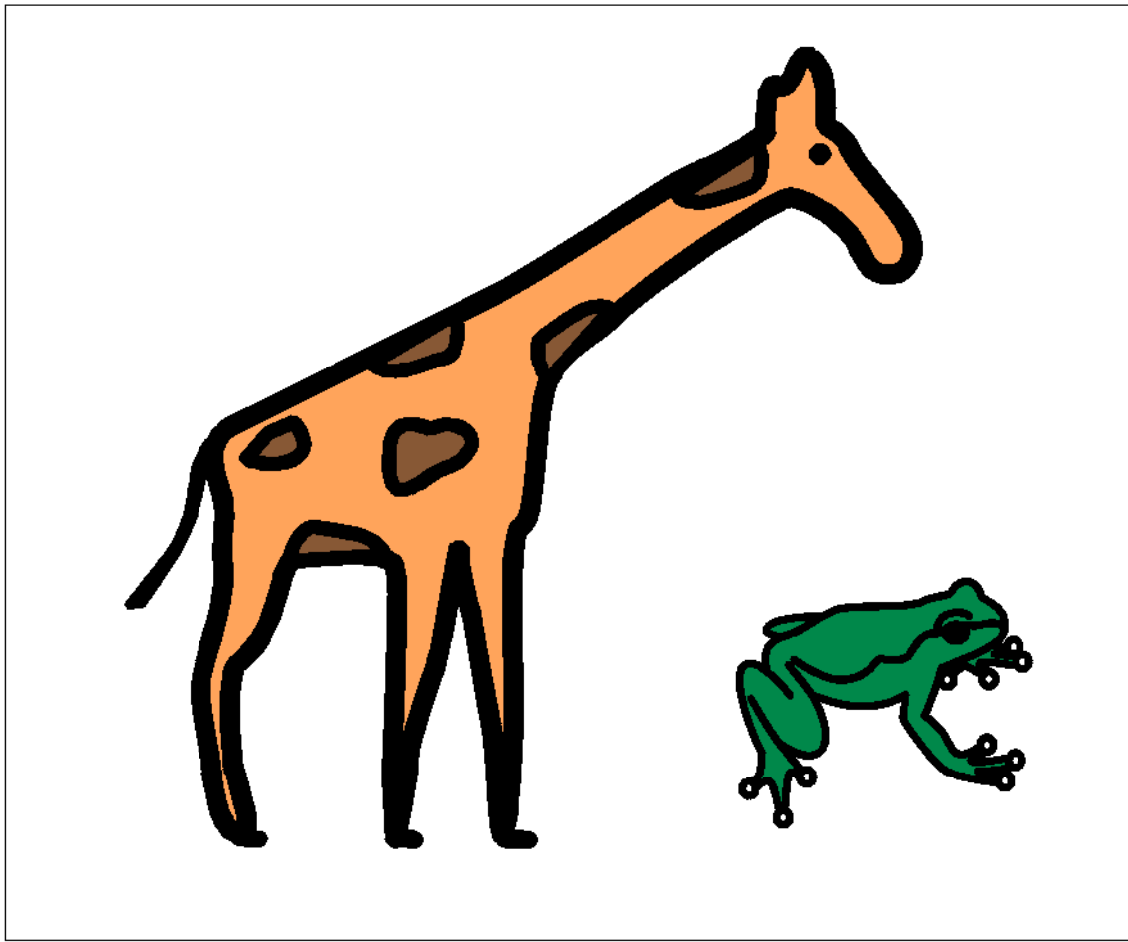

&

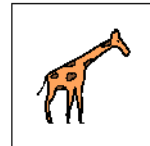

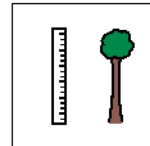

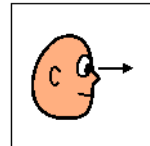

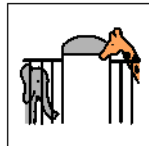

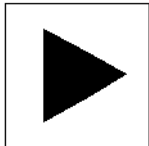

At the zoo, animals have shelter.

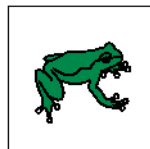

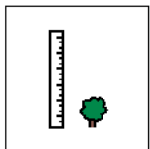

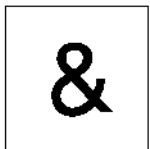

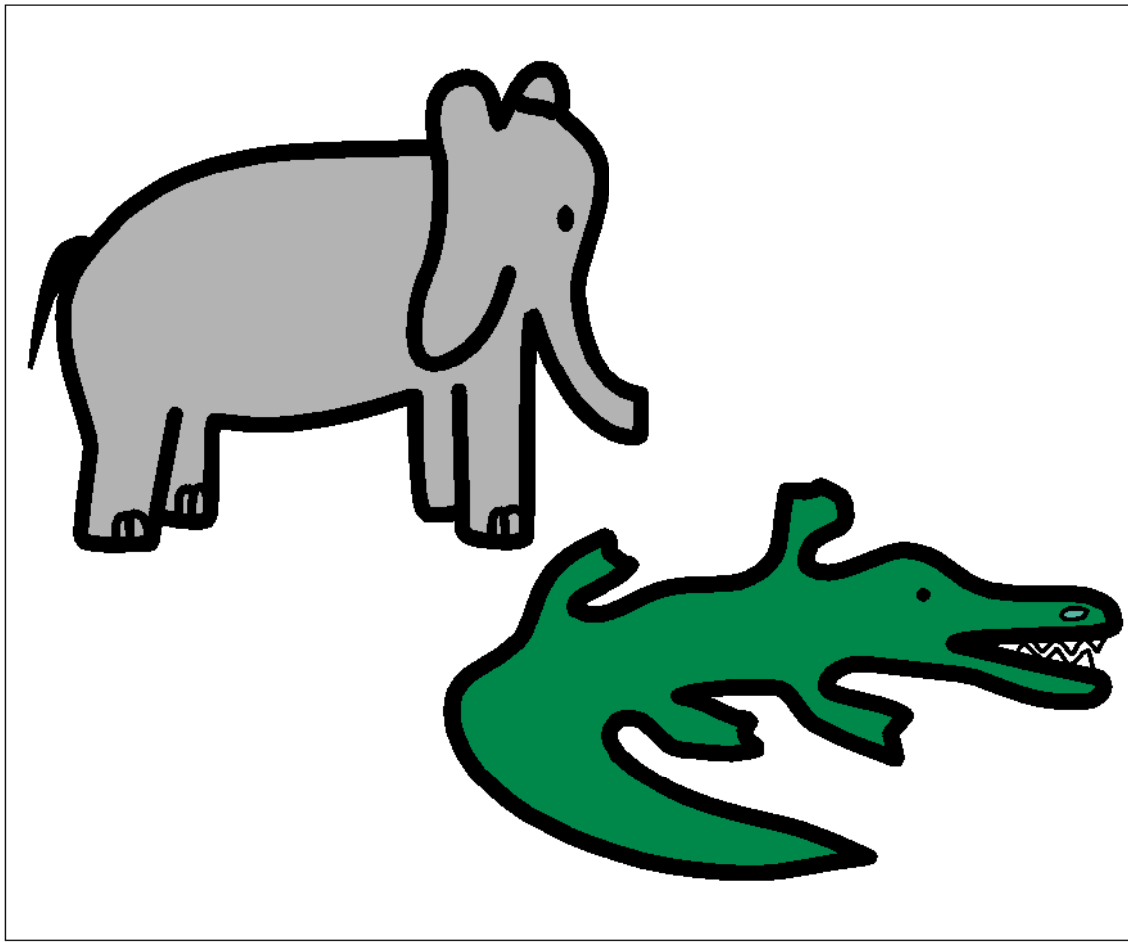

At the zoo, I see a tall giraffe

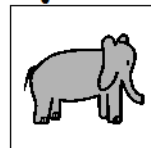

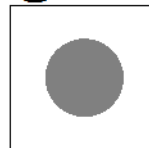

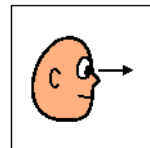

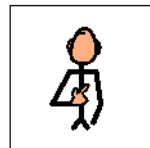

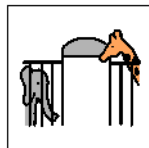

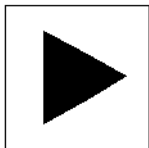

and a small frog.

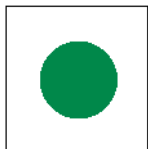

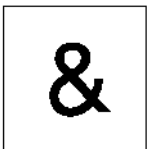

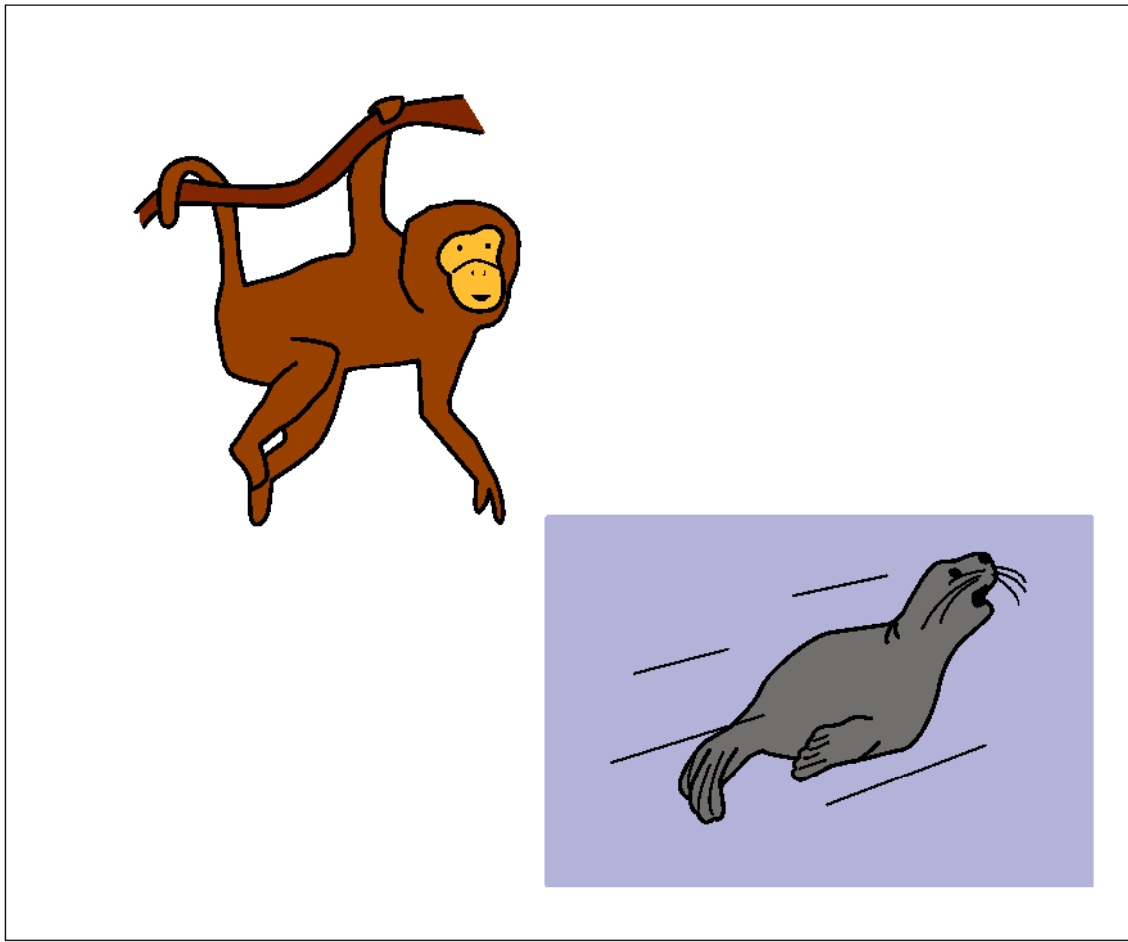

At the zoo, I see a grey elephant

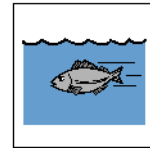

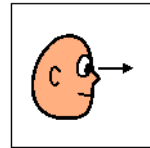

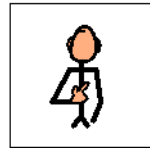

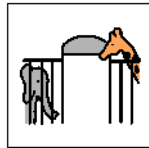

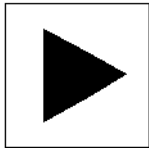

and a green alligator.

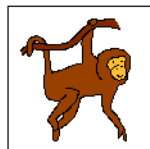

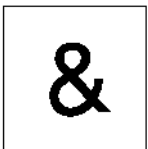

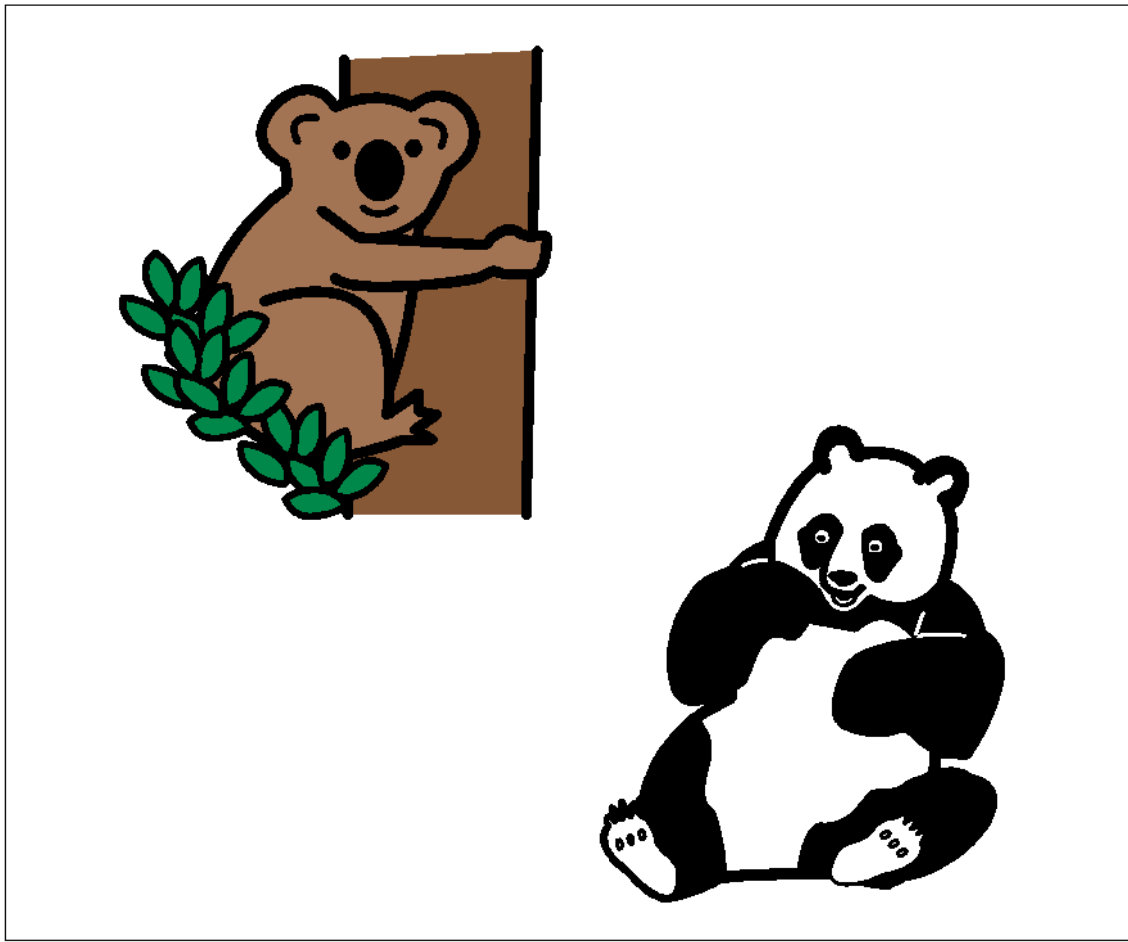

At the zoo, I see a seal swimming

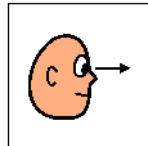

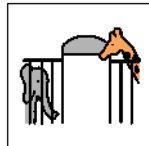

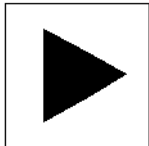

and a monkey swinging.

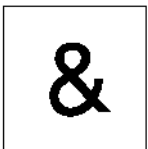

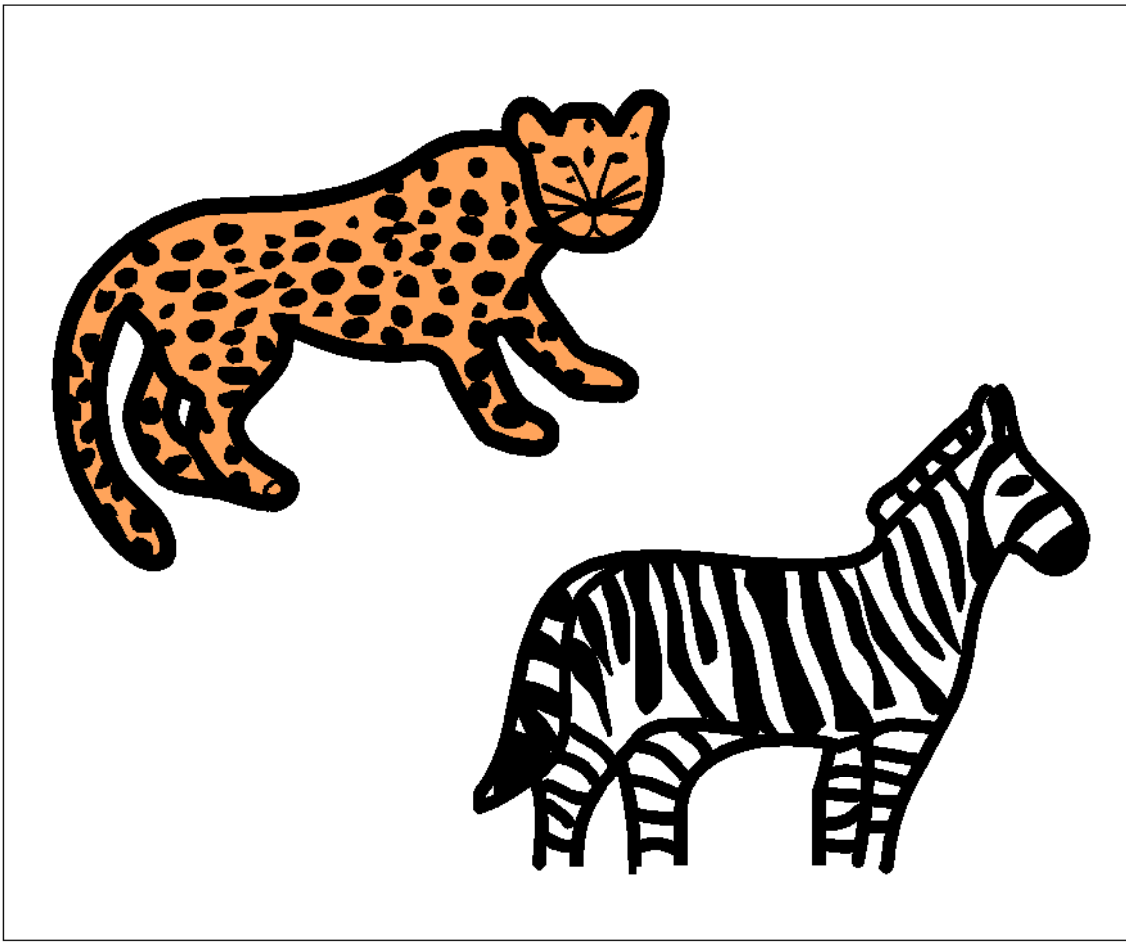

At the zoo, I see a panda bear

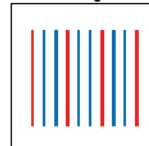

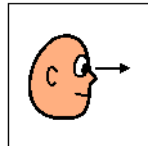

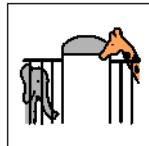

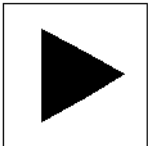

and a koala bear.

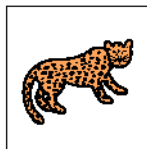

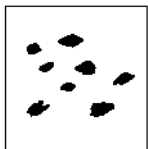

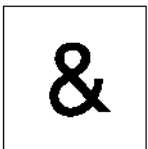

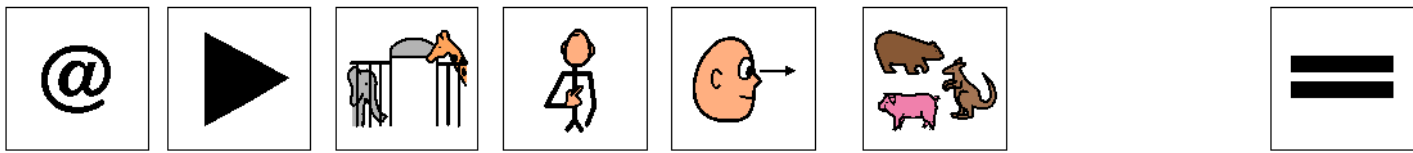

At the zoo, I see a striped zebra

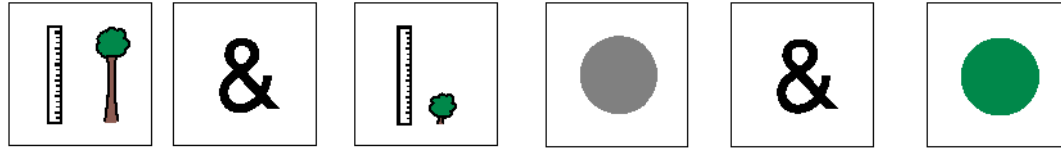

and a spotted leopard.

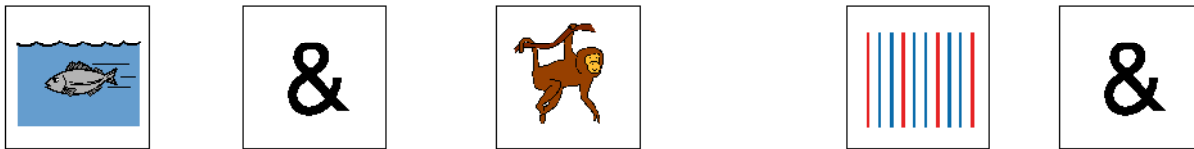

At the zoo, I see animals that are

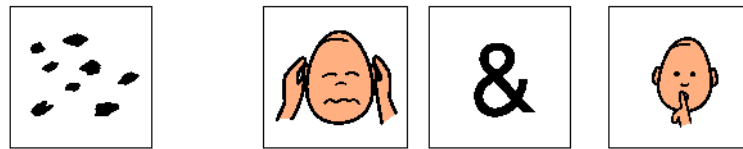

tall and small, grey and green,

swimming and swinging, striped and

spotted, loud and quiet.

There are so many different animals

at the zoo.
