

2017 FLATE AWARD NOMINATIONS Part I

Dear Nominator,

FLATE's Distinguished Manufacturing Service Recognition Program, hosted by the Florida Association for Career and Technical Education-FACTE, brings recognition to both secondary and post-secondary educators as well as recognizes key personnel for outstanding contributions to promote technology education and career awareness in support of manufacturing. This award includes nominees working in any manufacturing area such as economic development, industry, education and administration.

FLATE award winners are selected from submitted nominations from around the state. FLATE awards are judged by an awards committee made up of industry representative of our FLATE Industry Advisory Committee and FACTE.

The awards committee reserves the right to select award recipients that do not meet FACTE's membership requirements. In this case the highest ranking members award application that meets the membership requirement (past 3 years of consecutive ACTE membership).
