Week 6 Computer Projected Lines for Every CFB Game

For the past seven seasons we have posted computer projected lines for every game on Wednesday. **Games where there was of difference of more than 3 points saw our computer lines actually beat the Vegas line at a 468-395-14 (54.2%) clip! This year the ratings have gotten off to a slow start at 7-13.** That's pretty solid and actually better than our own handicapping in some seasons. Keep in mind, these computer lines don't take into consideration off-the-field factors like revenge or flat spots or if there are late-week injuries. They are basically a power-rating number difference between the two teams that also takes into consideration the home field advantage.

Of the 2 games where our computer is off more than 3 points compared to the Vegas line (highlighted), our favorite team this week to back would be **Florida State -24.**

The Comp column is the computer projected line and the Diff column is the difference between the Vegas line and the Computer line. "+" numbers in the difference column say back the underdog. "-" numbers in the difference column say back the favorite. Let us know if you have questions.

Betting CFB Openers

Every Sunday in Vegas at 11am PT, Circa Sports is the first book in the world to release CFB lines and we bet them every week. We think it's the best value bets we make all week. 2020 was the first season where we tracked every single bet we made and posted them in the weekly newsletters. We were very pleased with our 119-76-3 (61%) record on these Sunday bets with an average line value of 2.6 ppg! In 2021, we were 224-196-5 vs the Circa openers with an average line value of 1.8 ppg. In 2022, we were 314-262-14 (CLV 417-122-51 +1.65 ppg). We're off to a horrific start in 2023 with a 162-163-1 record (CLV 243-65-18 +2.12 ppg). Below is what we bet for Week 6.
