> CLINICAL SERVICES

Dr. Michael Hill has been a member of the Adirondack Health medical staff since 2001, and provides the most diverse range of general and specialty surgical care in the Adirondacks and northern New York. He is board certified in both General Surgery and Thoracic Surgery.

While he is best known in the north country for Bariatric Surgery, having performed over 2000 procedures in this field, he has considerable expertise in reflux (GERD) swallowing disorders (dysphagia) hernia and endoscopy. He has focused his expertise on bringing new state of the art diagnostic and therapeutic technologies such as Navigational Bronchoscopy and EBUS for the diagnosis of thoracic malignancies, as well as TIF and LINX for GERD patients.

He has served on the board of the New York state chapter of the ASMBS, is surgical director of the Bariatric Program, has served as Chief of Surgery at Adirondack Health since 2003, and is on the teaching staff of SUNY Upstate Medical School in Syracuse.

Among some of the services he provides:

Thoracic: VATS Lobectomy, Navigational bronchoscopy, EBUS, pleurodesis

Bariatric: Band, Gastric Bypass, Sleeve Gastrectomy, Duodenal Switch, and Revisions

General: Laparoscopic Cholecystectomy, bile duct exploration, colon resection, inguinal and ventral hernia, colonoscopy, upper endoscopy

Reflux: pH monitoring (Bravo capsule), esophageal manometry, Nissen fundoplication, hiatal hernia repair, TIF, LINX

Adirondack Health is the family of facilities and individuals who have provided sophisticated care to the Adirondack region of northern New York and beyond for more than 100 years. They include: Adirondack Medical Center, four community health centers, a dental clinic, and two living centers. The highly trained and compassionate individuals of Adirondack Health provide a full range of medical, surgical and long-term care services. Adirondack Health is the only full service health system in the Adirondack Park.
