

ARE YOU TIRED OR TOXIC?

The BODYSCAN 2010 is an effective Biofeedback device. It measures the energy of the body according to the acupressure points. The testing is quick, safe, and non-evasive.

The duration of the test is 20 minutes. A harness is applied to the forearm. Once the test is completed Distinct Touch, The Bodywork Center, Inc. Practitioner will review and access the stress and stress-related responses. Imbalances are reviewed and discussed with the client and a recipe is made to help balance the body. Nutritional counseling is conducted and a protocol is developed with the client to be followed. This protocol contains a special recipe customized for the client.

*We offer many therapies with
the natural approach to healing*

The BodyScan allows us to see energy blockages and provides recommendations for eliminating blockages and achieving balance. When we are not balanced we feel that our energy levels are low. The BodyScan provides the opportunity to find what is causing the energy disturbance. Your body will make suggestions through the BodyScan that we use to can assist you in achieving wellness. Once the body is balanced, the body regenerates and heals causing a person to have more energy and feel better. We encourage our clients bring their vitamins and water to be imprinted with their customized recipe to extend the balancing effects of therapy.
