

## Two Headed Faucet Kit

### For AlkaViva H2 Models

#### Melody II, Ahtena h2, and Vesta h2 Water Ionizers

*THIS WILL NOT WORK WITH OLDER STYLE MACHINES - JP104, JS205*

#### Faucet Finish Choices

- Brushed Nickel (Stainless Steel Look)
- Chrome (Bright and Shiny)

The AlkaViva Melody II, Athena h2 and Vesta h2 come ready to install with a diverter that attaches to your water faucet. Many customers, however, desire the luxury of installing their ionizer under the sink. The Optional "Under-Sink Kits" allow you can install your Melody or Athena under the sink and have access to Alkaline Water from an attractive faucet that installs in a standard 1 1/4" hole. The Kits provide a faucet and all the parts needed for most installations. You will need a 110Volt outlet to power your ionizer. The faucet comes in Brushed Nickel (Closest to Stainless Steel Look) and Chrome (Shiny). There are two kits available for your consideration -

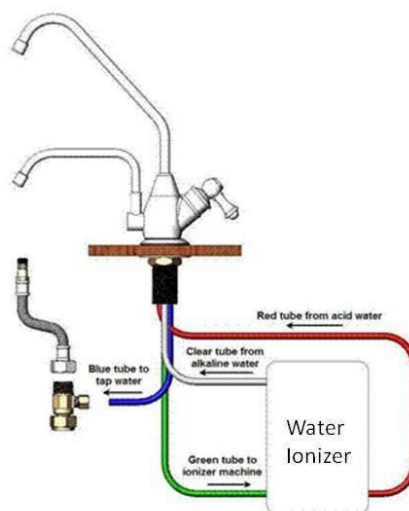

Two Headed Faucet Kit - This Kit provides a faucet with two heads, one dispenses Alkaline water and the other discharges Acid water.

Faucet is made of Lead-Free Brass

The Kit provides:

- Faucet - Brushed Nickel or Chrome
- Cold Water Adapter - to connect to cold water line
- Special Adapter - Connects the Alkaline Output to the Faucet

Dual Headed Under-sink Kit  
For Melody II, Athena H2, or  
Vesta H2
