

### ***Biography***

**Sujanya Jesus** is originally from Tamilnadu, India where she completed her studies from schooling to post graduate program. While doing her masters in Biotechnology, she was awarded the National Institute of Material Science, (NIMS) President's Internship Fellowship to work under the supervision of Professor TANIGUCHI Akiyoshi in NIMS, Tsukuba, Japan where she could start to fulfil her thirst for research interest. Now she is a visiting research student in Prof. Ajayan Vinu's group at FII, UniSA. Her research is mainly focussed on the development of MoS<sub>2</sub> -carbon nitride composites for hydrogen evolution reaction.

### ***Education***

Master of Biotechnology (2015) in Holy Cross College, Tamil Nadu.

Bachelor of Plant Biology & Plant Biotechnology (2013) in Women's Christian College, Tamil Nadu.

### ***Research Interest***

Nanomaterials

Biomaterial

Nanocomposites
