DESCRIPTION: The BP Stallion model fit between the Mustang and the Javelina in price point. Bubinga riser. Comfortable grip. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No crazing or stress cracks; The green face limbs are in excellent condition. The red back limbs show some wear and tear and discoloration, and have a couple of filled scratches (see red limb pics). A few blemishes and nicks here and there. Decal is in OK condition. I put this bow to a stress test (held at full draw for 24 hours to assure that the old glues held and the limbs would not develop any stress cracks). I have shot this bow several times. It is a really good shooter.

Comes with a new cow hair shelf rest and side plate, and a new string.
