

# Coonawarra

***“full of treasures carefully gathered over many years”***

Carefully planned and cared for, this medium sized garden is set off by the most wonderful wisteria rambling over the porch. The landscaped lawn at the front of the house is planted with bulbs and there are many garden sculptures blending with the beauty of the garden to create serendipity around corners or in nooks. Round the back are unusual trees, and shrubs and a compact vegetable garden. Enjoy this garden and delight in Cheryl's extensive knowledge about the plants she has nurtured over time.
