

THE MODERN TOWER OF BABEL

The purpose of this illustration is to depict the 'modern' Tower of Bebel that is yet to be completed by the 'Builders' of Lucifer. The precepts of the Tower is said to be started by the 1st Mason, Nimrod. He was the great-grand won of Noah after the Flood. Nimrod wanted to rule the world under his authority and word in defiance to YHVH's commandments. The same concept is made current in an attempt to unify Europe by the very same forces of the Spirit of AntiChrist. The European Parliament is headquartered in Strasbourg, France. It is modeled after the Bruegel painting of the unfinished Tower of Nimrod who personified the 1st type of the AntiChrist to come and will in the Last Days.

The core of the city is presented in the model of the Cydonia, Mars pyramid complex. Interestingly, the cathedral houses the famous astronomical clock. The various numerical values of the modern 'Tower' are pegged to the ancient one and the Great Pyramid.
