

Many Hands

making a social and ethical difference

Social Justice programme with Schools

October to June

October

What is Many Hands UK about?

- The ethos of Many Hands UK as explained by the “Give a man a Fish” story including the children in a dramatised exercise.
- Telling the story of the two projects in India to give an overview and set the scene

Understanding different Culture

- A simple multi-choice quiz which will give some understanding of the culture in India
- An exercise in designing a Christmas card to begin to connect and merge the Christmas story to the lives of those in India and to stimulate creative ideas

November and December

Ownership and fundraising

- Producing a large card to share at Christmas in schools and possibly a wider market, which will begin to give the children ownership of their part in Many Hands UK as they begin to fund raise
- Other methods of fundraising i.e. donating of ticket money from nativity plays etc. and ideas spontaneously thought of by the children i.e. which in the past have been sale of work and cake sales

February and March

Practical expression of what has been learned of need

- Getting to know the lives of orphaned children from the projects in India in depth
- Understanding the issues and differences in the childrens’ lives as compared to their own
- Practical activity to help connect the children and show how they can make a difference in their lives i.e. The Rucksack Challenge
- Set up Skype links with an interpreter and the children in India to strengthen that personal connection

April

Entrepreneurial Task

- A dramatised outline of one of our Social Enterprises actually works, that incorporates the principles of “Teach a Man to Fish” in India to inspire the children here.
- The setting up of an entrepreneurial task with the children which will include the process of exploring each child’s gifts to set up a business mirroring the process of the projects in India

May and June

- Visits to schools to see the progress of ideas and giving any support as needed
