

Part II All Breed Handling Workshops:

This workshop will teach you how to take handling to an entirely new level. Look like a pro, this is like the answers to the test! After this workshop you will be competitive with the best of the best. Learn in one day what takes many to learn in years of the art of presenting dogs. If you are new or a pro, you will walk away with more tricks in your bag for making your dog look better than your competition.

What you will learn!

- Master the five steps to winning at a dog show.
- Learn how to make your dog ask for the win.
- Master the art of communicating with your dog.
- Fine tune Stacking and Gaiting.
- How to get the maximum spark from any dog.
- Techniques for strength training and muscle memory.

Please note Part 1 All Breed Handling workshop is required for this class. There is no time to teach the very important skills learned from Part 1. Even if you have taken a Part 1 All Breed Workshop from Eric Salas we promise you will get more out of this class if you take another Part 1 class prior to this class.
