

Love our lands, fill the space

Saturday, February 18, Noon
Gather, eat, dance, share the joy
Green Springs Inn & Cabins
11470 Highway 66

We love the public lands that surround us. We support protections that prohibit extraction of resources and other damage to ecosystems on those lands. We enjoy free access to these public lands, which is not the case for private properties or tracts that are allocated to private entities for commercial operations.

We know that Trumpism has encouraged industry groups to believe they can reopen our public lands to clearcutting, mining and other depredations. These powerful interests gather support from regular folks, some of them our friends and neighbors, who identify with lifestyles, economies and values of the past. We respect these friends but we believe that they will be disappointed. History moves only in one direction.

For now, the campaigns are over. Hearings and rallies are behind us. Decisions have been made. Let's pause and appreciate the priceless legacy that has been entrusted to our community.

Join the celebration. Show our numbers. Fill the space. No need for signs, speeches or contention. Your positive energy is your most powerful statement.

Music, food and beverages will be provided.
