

200 SERIES PlastiKlean Cleaners and Wax & Grease Removers

Technical Information

Archemya offers a wide variety of cleaners to be used prior to painting to remove silicone, grease, oil, tar and other contaminants. These products are designed to provide a light etching action to ensure a greater adhesion on a cleaner substrate. These products are also available in VOC compliant grades to meet the EPA regulations.

Products Available: **201WG Wax & Grease Remover** (Aerosol and Bulk)
202AS ZERO VOC PlastiKlean (Trigger Bottles and 5 Gallon)
204AS All-Purpose PlastiKlean (Aerosol and Bulk)
203SK Scuff Klean (Bulk 1 Gallon)

Benefits:

- **Prepares and Cleans the Surface for Sanding and Painting**
- **Meets All Current Air Quality Regulations**
- **Will Not Soften or Distort the Plastic**
- **Durable**
- **Available in a Variety of Packaging (Call for Packaging and Availability Information)**
- **Sinks into the Substrate, Pushing the Contaminants to the surface.**

Applications:

Directions for use: Carefully follow the instructions on the can. For more information about this product please refer to our Material Safety Data Sheet.
