Social capital is that desired cooperative and relational benefit achieved by the investment of connections, interaction, linkages and time between individuals or groups who synergize together in productive relationships. These connections produce living, active social networks that have gains and valid values leading to increased productivity (for both the individual and group). These networks are given form and power by social interactions and exchanges amongst individuals and groups.

Let us help your organization and staff:

- ✚ Build strategic alliances and enhanced supply chain relations and turn relationships into currency
- ✚ Build enhanced social structures, pursue interests and create changes in relationships among parties
- ✚ Learn how to alter power balance towards profit for your group and gain opposing parties
- ✚ Cultivate a high power figure and be more assertive and positive and celebrate your qualities to your gain and lift someone else
- ✚ Facilitate co-operation and mutually supportive relations and acquire how to discover people and show them ground breaking, profit making unique interest
- ✚ Build the power to generate valued and valid contacts, connections and friendships
- ✚ Discover how to venture out, cultivate bonding, bridging ties and gain followership, capture a broader radius of trust to enable connections across borders of all sorts to serve as a basis for personal and the organization’s growth and development
- ✚ Create magnetic presence and interconnections, networks of relationships, reciprocity, trust, and social cohesion
- ✚ Develop skills for social participation, cultivate and nurture durable networking prowess, foster institutionalized relationships of mutual acquaintance and recognition
- ✚ Increase personal access to information and build skill sets and enhanced personal power of influence, identify problems and solutions, and manage conflict
- ✚ Make tangible substances count for other people’s daily lives through goodwill, fellowship, mutual sympathy and social interaction
- ✚ Acquire skills for the accumulation of social capital
- ✚ Win and design people into productive possibilities for advancement
- ✚ Know how to help people satisfy their social needs

- ✚ Discover and inspire and motivate the profitability of associations and the advantages of creative help, sympathy, and the fellowship of neighbours
- ✚ Achieve interest group formation and shaping
- ✚ Discover how to transform social relationships in an irreversible way
- ✚ How to handle disorganization at both the individual and social levels
- ✚ Facilitate communication with the individual and in the community across ethnic lines
- ✚ Squash and Squelch rumours
- ✚ Help the administration carry out its job and in particular peace, security and justice
- ✚ Develop zero tolerance for failure and push for the bang
- ✚ Cultivate intentional competency, shape and improve what you have, build durability, reciprocity (mutual benefit exchange), authenticity, reliability, trust and give trust
- ✚ Develop passion, persistent focus and pursuit, and push beyond shyness, self-doubt and competition
- ✚ How to re-invent oneself after failure, criticisms, rejection, adversity, prejudice and hatred
- ✚ Discover and interpret and use body language and non-verbal communication effectively to one's advantage
- ✚ Learn how to communicate and change minds through open ended questions, strategic social motivation and discover how to capture other people's help without coercion or deceit
- ✚ Learn how to harness your thoughts, feelings, dreams, and physical environment
- ✚ Learn the redemptive power of choice making. Nothing in life is really unrealistic, gain the power to capture the unrealistic
