

2022 LATE MODEL FIGURE 8 TIRE RULES

Beginning April 11, 2022

With all the tire issues going on around the country by ALL tire manufacturers and the potential of more issues going forward, we have decided to be proactive with steps to help ensure good competition all year long and protect the World Figure 8 Championship in September.

We have been promised plenty of tires for having an unlimited tire purchases all year, but we have decided to go with this rationing plan to guarantee not running out. If supplies increase as the months go by, we can open things back up.

- We will be running the Hoosier F53 tires at ALL 2022 Speedrome events including World Figure 8 Championship 3-Hour Figure 8 weekend
- Tire prices will again be going up slightly and may fluctuate to reflect our costs from Hoosier as the year goes on
- Remember, we make NO MONEY on tires
- Tires will ONLY be sold on race day after the pits open and stay in impound until a time deemed to be released depending on the program
- Drivers can only purchase a maximum of 2 new tires for feature races less than 150 laps and 4 new tires for races 150 laps & longer (3-Hour weekend will differ)
- Some feature races may be adjusted in length with plenty of notice
- This tire rationing will give all of us availability to more tires 3-Hour Figure 8 weekend, details to be announced
- Buying any new tires at each event is NOT required
- It is MANDATORY that drivers run the purchased new tires in that night's feature on their car ONLY
- Serial numbers will be logged while in impound and checked as the cars enter the racetrack as well as after the race if needed
- New tires on the wrong car will keep BOTH cars from competition until resolved
- If you do not complete 50% of the laps in that feature with those new tires, you will run those same new tires again in your next feature and NOT be eligible to purchase any new tires at that event
- Once a tire has surpassed the 50% qualification, it is now a used tire and can be on any car
- New tires damaged directly from an on track incident only will be dealt with on a case by case basis for replacement
- Race purses will stay at the new for 2022 level
- Your overall 2022 tire budget will now be less with less tires available to buy
- Still ANY chemically altered tires new or used will result in disqualification, fines, and/or suspension
- All guidelines are subject to change
