"Laughter is inner jogging" - Norman Cousins

August, 2015

Laughter is The Best Medicine

Many years ago, Norman Cousins was diagnosed as "terminally ill". He was given six months to live. His chance for recovery was 1 in 500.

He could see the worry, depression and anger in his life contributed to, and perhaps helped cause, his disease. He wondered, "If illness can be caused by negativity, can wellness be created by positivity?"

He decided to make an experiment of himself. Laughter was one of the most positive activities he knew. He rented all the funny movies he could find – Keaton, Chaplin, Fields, the Marx Brothers. (This was before VCRs, so he had to rent the actual films.) He read funny stories. He asked his friends to call him whenever they said, heard or did something funny.

His pain was so great he could not sleep. Laughing for 10 solid minutes, he found, relieved the pain for several hours so he could sleep.

He fully recovered from his illness and lived another 20 happy, healthy and productive years. (His journey is detailed in his book, *Anatomy of an Illness*.) He credits visualization, the love of his family and friends, and laughter for his recovery.

Some people think laughter is a waste of time. It is a luxury, they say, a frivolity, something to indulge in only every so often.

Nothing could be further from the truth. Laughter is essential to our equilibrium, to our well-being, to our aliveness.

If we're not well, laughter helps us get well; if we are well, laughter helps us stay that way.

Mat Chats

Good Habits

Week 1. Self discipline

Week 2. Dinner before dessert

Week 3. Taking responsibility

Week 4. Wherever you are... Be there!!!

THE WISE MAN

People were coming to the wise man, every time complaining about the same problems. One day he told them a joke and everyone roared in laughter.

After a couple of minutes he told them the same joke and only a few of them smiled.

When he told the same joke for the third time no one laughed anymore.

The wise man smiled and said:

"You can't laugh at the same joke over and over. So why are you always crying about the same problem?"

continued on back

continued from front-

Since Cousins' ground-breaking subjective work, scientific studies have shown that laughter has a curative effect on the body, the mind and the emotions.

So, if you like laughter, consider it sound medical advice to indulge in it as often as you can. If you don't like laughter, then take your medicine – laugh anyway.

Use whatever makes you laugh – movies, sitcoms, Monty Python, records, books, New Yorker cartoons, jokes, friends.

Give yourself permission to laugh – long and loud and out loud – whenever anything strikes you as funny. The people around you may think you're strange, but sooner or later they'll join in even if they don't know what you're laughing about.

Some diseases may be contagious, but none is as contagious as the cure. . . laughter.

By Peter McWilliams From "Chicken Soup for the Surviving Soul"

(Remember to laugh with people, NOT AT people.)

THEME OF THE MONTH: Jiu Jitsu

All month long in our classes we will be practicing Jiu Jitsu. What is Jiu Jitsu? Jiu Jitsu is a martial art, combat sport, and a self defense system that focuses on grappling and especially ground fighting. Jiu Jitsu promotes the concept that a smaller, weaker person can successfully defend against a bigger, stronger assailant by using leverage and proper technique .
