

THE GOAL

The goal of this Flight Review is to review aviation terms, regulations, and the safe execution of basic flight maneuvers. Other standard FAA Practical Test items may be practiced. The underlying goal is to become a more proficient and safe aviator.

This IS NOT a Check Flight. The Review is passed when the applicant can exercise his or her certificate safely. There must be a reasonable assurance that the pilot will not be involved in an accident and the performed maneuvers are never seriously in doubt as to their outcome. If not signed off, the flight is logged strictly as Dual Instruction per FAR 61.

Ground

- Logbook review – currency*/type of flying done in the past
- FAA Certificate review *
- Medical Certificate (Min Class III)*
- Current charts and publications
- Minimum safe altitudes (FAR 91.119) #
- Airspace review (FAR 91.126 – 91.145) #
- Fuel requirements (FAR 91.151) #
- VFR Flight Plans review (FAR 91.153) #
 - Island Reporting System
- Cloud clearances review (FAR 91.155) #
- VFR day and night aircraft requirements (FAR 91.205) #
- Maintenance requirements (FAR 91.401 – 91.409) #
- Passenger Briefing requirements (FAR 91.519)
- Aircraft Documentation requirements *
- Weight & Balance review (Be able to do a W&B) #
- Aircraft V-Speeds (A/C POH)
- Desk fly a VFR chart (terminology, symbology) #
- Demonstrate how to get weather, NOTAMS, file a flight plan, research Temporary Flight Restrictions #
- Find cross wind component #
- Review of emergency procedures (A/C POH) #

Aircraft

- Perform preflight #
- Safe taxi, takeoff, and climb out #
- Radio procedures #
- ATC compliance #
- Use of checklists #
- Look out doctrine #
- Straight & Level flight #
- Climbs & Descents #
- Slow flight #
- Power off stall #
- Power on stall #
- 180° Standard rate turn, climb and descent under the hood #
- Other maneuvers you wish to practice
- Normal landing #
- Bailed landing/go around/wave off #
- 180° power off accuracy landing #
- Other types of landings you wish to practice
- Basic area navigation #

Subjective Areas

- Use of sound judgment *
- Safe practices *
- Use of Crew Resource Management #
- Situational Awareness #

** = Failure will terminate the Review*

= If unsatisfactory, further training will be recommended.
