Time Prayer

Dear **1 God**, Creator of the most beautiful Universe
Your most humble faithful custodian-guardian (1st name)
Thanks' You for giving us a beginning and an end
Time to be measured, Time to plan, Time to enjoy
Help me to control time so it will not enslave
I try not to hurry or rush
For the Glory of **1 God** and the Good of Humankind

This prayer can be said any day, alone or in a group in anyplace.

Using Custodian Guardian New Age time management is essential to implement human destiny. Space-exploration and colonization.

Control time

New Age time management should not be misused to enslave or for profiteering or exploitation. Don't use time to hurry a human body it is not designed for hurrying. There is no need for speed.

1 God created time so we can measure beginning and end of anything. Humans created time management to control time. In the imperfect Universe time is vague and not precise. Human greed embraced time management to control time, the rush job and time slave were created.

1 God created time and set the example to control time. Work 5 days on day 6 evaluate your achievement, complete any unfinished work then plan next weeks work. On day 7 rest enjoy life have a Fun Day! The weekly work plan is done on day 6. The weekly family plan on day 7!

Every Passover analyze your actions against current yearly plan. Enter your plans for the coming year. Quattro years: analyze your Quattro-years actions against current 4 year plan. Then enter your coming 4 years plan.

Use time management to control time. A combination of processes, tools and techniques are used to achieve this.

Each data that crosses your desk: act on it, file it, or toss it.

Make time for important things, not just urgent ones.

Set a starting time and deadline for each project.

Slice up big projects to bite size steps then decide order of steps.

Don't panic do the best you can.

If you run out of steam on a project, switch to another.

Don't rush stay in control of time.

1 God did not rush with any of the creations! Did not design the human-body to hurry or rush. To hurry or rush is a health hazard: Accidents, Addictions, Anxiety, Depression, Heart-decease, High-blood pressure..

Side effects of hurrying, rushing! To hurry or rush results in accidents, shoddy work and anxiety. Leaders that hurry or rush are unfit to lead! Leaders that force others to hurry or rush are unfit to lead!

Greed embraced time management! It created rush jobs, piece work, just in time inventory.. Time slaves!

Time should not be used to hurry people.

There is no need for speed.
