**2015 Application for Dust Control**  
**Lignin Sulfonate**

We, the undersigned, hereby make application for permission to apply Lignin Sulfonate for the purpose of dust control in the location described below.

**Marion County**

The applicant agrees to the following:

1. **Deadline for sign up is April 15, 2015.** In order for the county to have sufficient time to prepare the roads before the first application, no applications can be accepted after this date. The deadline for the second application is **June 15, 2015.**
2. To maintain flags or other types of markers to identify the outer limits of the area to be treated with lignin sulfonate. **Yellow flags must be in place April 15, 2015 and kept visible until October 15, 2015.** This is to inform the motor grader operator as to the location of the treated surface. Failure to do this could result in the area being bladed. \*Flags can be picked up at all county shops, the Engineer's office, the Central shop, or can be obtained from Fetters Services.
3. The applicant is responsible for the maintenance of any potholes, washouts, secondary ditches, etc. that may develop in the treated surface. The county reserves the right to blade the treated area if it must be done to maintain public safety. Also, your road will be bladed thoroughly after October 1, 2015 in preparation for winter.
4. This agreement is limited to two (2) treatments only. The 1<sup>st</sup> application approximately mid-May with the 2<sup>nd</sup> application approximately mid-July. All cost associated with this application shall be the responsibility of the applicant.

*Thank you for your business!*

Please return the portion below.
