## A Cabbage Contest with a Delicious Ending

A cabbage contest involved guessing the weight of a cabbage, which ultimately weighed in at 14 1/2 pounds with a circumference of 40 inches! After the contest, the outer leaves were removed, revealing a perfect cabbage head that was used in various dishes. The remaining leaves were given to our animals.

## Playing Bocce at Village Park

Our pre-vocational team had a blast at Village Park in Carlisle! They played multiple rounds of bocce on the courts and the competition was fierce. The outcome of one game was so close that it had to be decided by pulling out a measuring tape! It's clear that this group has a lot of skilled players.

## Career Day

Staff Member Katie and participants, Sean, Dana, and Quinton, recently participated in Career Day at Cumberland Valley High School. They had the chance to meet students during a luncheon and share their experiences at the farm in breakout sessions. Katie described her career as rewarding and fulfilling, stating that even on challenging days she goes home knowing she's made a difference. She also mentioned that while she likes to believe she's made a positive impact on the participants' lives, they have 100% made her life better.
