

## JUST MY OPINION

---

*Roger R. West*

Some of you will think I have completely lost my mind, and deep inside I hope that is partially true. However, deep down inside I have a growing fear that I am right in what I am about to say. America cannot continue on its current path. The seams of our Republic cannot withstand the enormous amount of hate that has been festering the past several years. The socialist left is mad and just keeps getting madder as the days past. Obama set in motion the destruction of America and Hillary was supposed to finish the job. When Donald Trump won the Presidential election the socialists went into a frenzy and the seams are about to burst. Antifa has plans to overthrow the United States government! They are calling for this to begin on November 4 of this year; however it will begin sooner than that. I know this can't happen in the United States of America, right? Oh but the truth is that it can and it is going to be attempted. There is a lengthy post from the website for the far-left, Refuse Fascism, which appears to be a front group for the Revolutionary Communist Party. It is totally anti-American and has called for the abolishment of America.

According to the post from Refuse Fascism: "We will gather in the streets and public squares of cities and towns across this country, at first many thousands declaring that this whole regime is illegitimate and that we will

not stop until our single demand is met: This Nightmare Must End: the Trump/Pence Regime Must Go! Our protest must grow day after day and night after night - thousands becoming hundreds of thousands, and then millions - determined to act to put a stop to the grave danger that the Trump/Pence Regime poses to the world by demanding that this whole regime be removed from power."

They have gone so far as to draft a "Constitution for the New Socialist Republic in North America." This movement is led by Bob Avakian. He has published a pamphlet called "The Coming Civil War and Repolarization for Revolution in the Present Era."

It is already very clear that Antifa is not going to wait for electoral change. I feel certain we will begin to see this revolution emerge very soon, within a few weeks! Could it be that the mass murder in Las Vegas was the "shot heard around the world?" Many say this can't happen here, oh yes it can and it is going to. Just because President Trump is our Commander in Chief does not eliminate all the Obama loyalists within high government places, such as our military, police departments, Homeland Security, ICE, and the list could go on and on. Be vigilant and keep safe. We can win this, but it will place us in great peril until we do.

As always...that's just my opinion!
