

This is Avion. Trailering in the grand manner.

A most distinctive interior to entice the most envious stare. You go through life but once. Now more than ever, you have good reason to experience the ultimate in trailering.

A new day and a new life start when you step up to Avion Silver.

Generously spacious for entertaining, intimate for privacy and relaxation.

Avion dining is elegance in classic French Provincial. It can be informal too, when the mood strikes you.

Efficiency and abundance in every storage space.

There's no compromise on comfort. Our kitchen is a full kitchen, not a galley.

The quiet privacy of a master bedroom that's separate and completely enclosed with adjoining private bath.

A newly designed bathroom is spacious enough to accommodate a man-sized bath, attractive vanity, and convenient linen closet.

What's in a name? A day in America's foremost travel trailer reflects the true value of Avion Silver.

Thermo-X urethane insulates, seals and strengthens the Avion body unlike any other.

Our unique MOR/ryde suspension literally "walks" over rough ruts and bumps.

Our Travelcube is a relaxed, old-fashioned club where friends call you by name. It's exclusive, too. For Avion owners only.

Avion's three-way water system frees you from the need of frequent hookups.

Anodized aluminum is a silvery, satin-smooth, non-glare surface.

Avion Silver comes in 25', 28' and 31' models with numerous floor plans.

For a richly colorful brochure on the shape of things that come in Avion Silver, write Avion Coach Corporation, 1300 E. Empire, Benton Harbor, Michigan 49022. Or see your Avion dealer.

"Of all the possessions of this life, a good name is the noblest." **Avion Silver**
Unmistakably Sterling

this is Avion Silver

Unmistakably Sterling

**Worth more living space than ever.
Wider, longer, lovelier. But not
a bit bigger to handle
on the road.**

This is the exciting new shape of things that come in Avion Silver. More spacious, more comfortable inside; more beautifully aerodynamic outside. Nearly forty extra cubic feet of luxury within, jetlike styling without. A quicksilver design that wings through the air with effortless ease. And a chassis/suspension system world famous for turning all byways into smooth riding highways.
