THE DIFFERENCE IS DRAMATIC!®

DRAMA KIDS CLASS DESCRIPTIONS

Kinder Kids, ages 3-5 years old

Our KinderKids Pre-School program is an excellent way to introduce the long-term benefits of dramatic arts participation to children attending Pre-K or Kindergarten. Each KinderKid student in our kid's theater program is highly involved in drama enrichment classes that develops speaking skills, builds confidence, and enhances early social skills and creative learning. The Drama Kids Instructors of our kid's theater program make sure all students feel comfortable and recognized so they will stretch and grow in a very positive environment. New scenes and activities are held in each drama enrichment class. At the end of the year, all the students get to show off for family and friends in a short, scripted presentation! Don't miss the fun!

Lower Primary, ages 5-8 years old

The Drama Kids developmental drama program provides children with unique opportunities to develop clear speech, fluent delivery and pleasing social skills. It helps give them the confidence to be participants in all aspects of their lives, able to ask questions, seek answers and share information with others. Children who mix well with others find it easier to make friends and adjust to new situations. They find school an enjoyable adventure! We motivate and inspire the students to become articulate communicators through enthusiastic participation in a wide range of creative activities including speech, creative movement, improvisation, and a special year-end performance!

Upper Primary, ages 9-11 years old

The confident, articulate child finds it easier to make friends, accept new challenges and explore new directions. Drama Kids is designed to help each child achieve these invaluable life skills. In a fun-filled atmosphere, we aim to give young people ongoing confidence, self-esteem and skill in verbal communication. Students participate in a wide range of creative activities including speech, dramatic movement, improvisation, snippets and scene starters. And at the end of the year they utilize all the skills acquired during the year to perform a short, scripted presentation for family and friends.

Acting Academy, ages 12-17 years old

This class is for teens who want to expand their skills in acting, public speaking, and performing. As students participate in dramatic activities and stage performances, they build confidence and learn to think more creatively. This foundation will have a dramatic impact on academic, personal, and professional success! Regular class activities include speech training, mini-scripts, monologues, small group improvisations, character analysis, audition skill development, and production techniques. At the end of the year, students will use all their skills in a short production for family and friends, complete with sets, props and costumes.
