

## NEW JERSEY LIONS EYEGGLASS RECYCLING CENTER CORRECTING UNCORRECTED REFRACTIVE ERROR PROGRAM (CURE) FLOW CHART

### STEP #1: CONTACT & APPLICATION

Patient contacts the CURE Coordinator or is referred to local Lions Club for an application/referral. Client or School Nurse can download application also by

Patient must first complete an application form then forward it back to the local Lions Club for review and final certification.

### STEP #2: REVIEW PROCESS

Once Lions Club receives and certifies application they become the referral agent for patient. After application is reviewed to ensure eligibility with program guidelines either Club President / Secretary certifies client "eligible" and application is faxed to NJLERC at 908-788-5467

### STEP #3: EYE EXAM

Patient assigned an application number and is contacted by Club, Cure Coordinator, or by Vision USA to schedule an eye examination with a licensed ECP who will then write prescription

### STEP #4: FRAME SELECTION

Patient picks a frame from a selection of donated frames at ECP's office. ECP sends prescription and frame to Essilor Lab in Warren, NJ via Courier Service. Prescription must have "NJCURE" with an assigned application number displayed on it.

### STEP #5: FILL ORDER

ECP will send copy of original signed certified application with prescription by fax and/or email to CURE Coordinator

### STEP #6: LENS & FRAME

Lab receives the prescription and frame from ECP and edges glasses. Lab verifies client number then uses it to bill NJLERC

### STEP #7: QUALITY CHECK

Finished eyeglasses are checked for accuracy, prescription is verified and Lab ships finished product back to original ECP

### STEP #8: GLASSES GO TO PROVIDER & CLIENT

Original ECP receives glasses back, verifies prescription and calls client in to dispense glasses

Patient receives pair of custom glasses. Lab bills NJLERC for both shipping and edging fees. Clubs sustain program by donations
