

## **Meet Mickey.**

**Mickey is a two year old dachshund/beagle mix who is 20-22 pounds of pure love and energy. He gets along with most dogs; cats are an unknown. He is good with children at adoptions events.**

**Mickey needs an active family who will play with him, take him for long walks, and positively channel his high energy. Another playful dog or older children who would play with him and take him on long walks would be ideal.**

**Mickey loves to play with toys and sit on his foster mom's lap when they are relaxing.**

**He is crate trained and doggie door trained. House training is a work in progress and he will do best when kept on a regular schedule.**

**Mickey is strong and energetic and pulls of a leash, but listens well to directions and wants to please.**

**Mickey is a sweet, loving boy who is looking for a forever home who can appreciate and provide positive outlets for his exuberant puppy energy.**
