

Stickman #37 Puzzlebox

(Smack-N Moles Puzzlebox)

DESCRIPTION: These whimsical puzzle boxes were originally designed for this year's IPP puzzle exchange, but had such charm and appeal that they warranted becoming #37 in the official Stickman puzzle box series. As exchange puzzle designs, these are not quite as large or complex as most Stickman boxes, but still pack elusive solutions into a little space. They require a minimum of 8 sequential steps to open, and measure 3.5" x 3" x 2.5".

These puzzles do function somewhat like the traditional Whack A Mole game, in that smacking one mole with the mallet causes another to pop up. The adorable little moles seem to enjoy it. The goal, however, is to deduce just how to open the box and free the little critters. Stickman Smack-N Mole puzzles are crafted from quality walnut, and limited in edition to 200 completed boxes.
