

TRY IT TOGETHER

Measure the length of each object to the nearest centimeter.

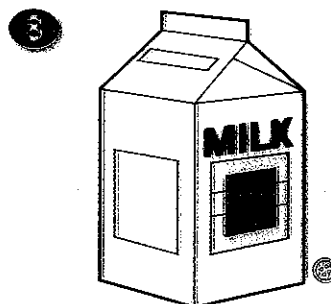

_____ centimeters

_____ centimeters

Estimate the length or height of each object to the nearest centimeter.

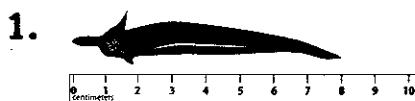

WORK ON YOUR OWN

Measure to the Nearest Centimeter

Using Symbols

2. The pepper is
8 centimeters long.

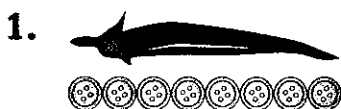

Using Words

Line up one end of the object with the zero mark on the ruler.

Read the number on the ruler that is closest to the other end of the object.

Estimate to the Nearest Centimeter

Using Symbols

2. The pepper is about
8 centimeters long.

Using Words

Compare a button or another benchmark to the object to be measured.

Estimate how many benchmark objects placed end-to-end would equal the length of the object.
