CONSENT TO RECEIVE PSYCHOLOGICAL SERVICES; CONFIDENTIALITY STATEMENT; & PAYMENT AGREEMENT

Consent to Receive Services

For adult clients:

I, _____, consent to receive psychotherapy, psychological testing, or other professional services from the above noted clinician at Atlanta Psychological Services.

For child clients:

I, (parent's or guardian's name) _____, consent for my child (child's name)

_____ to receive psychotherapy, psychological testing, and/or other professional services from the above noted clinician at Atlanta Psychological Services.

Confidentiality & Records: I understand that communications with me (or my child) will become part of a clinical record of treatment, referred to as Protected Health Information (PHI). My PHI will be kept secure in the office per HIPAA procedures. I understand that all information disclosed by me (or my child) in therapy or during a psychological evaluation is maintained in strict confidence. I understand that no information pertaining to my (or my child's) therapy or evaluation will be released to others parties without my consent, with the exception of the following: (1) I allow my clinician (or my child's clinician) to release information and I have signed a "Release of Information" form; (2) My clinician determines that I (or my child) am a danger to myself or to others; (3) My clinician receives information that suggests that a child, an elderly person, or a disabled individual has been abused or is at substantial risk of being abused and may require protection; or (4) My clinician is ordered by a judge to disclose information about me.

I am authorizing necessary disclosures to be made to my (or my child's) insurance company related to billing for any services furnished to me. I understand that I am authorizing the release of any information contained in my (or my child's) medical record to any relevant third party, or to its assignees, as requested by such third parties as necessary to pay any particular claim.

Any information about me or my child that is stored electronically in any means will be encrypted and otherwise stored and maintained in compliance with HIPPA requirements.

In the event of the clinician's death or disability, your clinical record will be maintained by Atlanta Psychological Services. If records are requested, or desired, and the office can legally and ethically provide those to you, the Practice Manager will make those records available.

Psychological Evaluations: I understand that if I (or my child) am receiving a psychological evaluation, the disposition of the report will be discussed with me and I will be asked to sign a release of information form if the report is to be released to any other individual or agency.

Forensic Psychological Evaluations - *Privilege*: I understand that in many circumstances, the individual (e.g., attorney) or agency (e.g., court system or other agency) that referred me (or my child) for this evaluation may hold "privilege" to my medical information, meaning that the report and other information about me (or my child) will only be given to that person or agency that holds "privilege," and that the clinician will only provide the report or any information about me (or my child) to anyone else (including to me), if the clinician has permission from that individual or agency, or per a court order. I understand that for forensic evaluations that involved any court case or other legal or administrative matter, the court could order the evaluation report to be released even if I do not consent. Depending on the nature of the referral source, I understand that I may or may not be permitted to obtain a copy of the report directly from this office, per legal requirements related to court-ordered or other legally related evaluations. I understand that evaluation results often must be obtained directly from the agency that referred me to this office rather than from the doctor who performed the evaluation. I further understand that anything I (or my child) discloses to the clinician is subject to being included in the evaluation report.

Initial the following when appropriate:

_____ : I have read and understand the above, as discussed between the clinician and I

_____ : I understand that the following individual or agency has being established as holding
"privilege" over my (or my child's) medical information → _____

_____ : I give permission to release information in the future to anyone that the above named holder
of privilege allows the clinician to send information to.

I understand that by receiving an evaluation for any court or other legally or administrative related purpose, I am paying for the clinician's professional time involved, regardless of the clinician's ultimate diagnoses, findings, opinions or recommendations and the impact that those diagnoses, findings, opinions or recommendations have on my case.

Psychotherapy: I understand that information that I (or my child) provide to a clinical in therapy is legally termed "privileged communication," meaning that it is my (or my child's) right as a client to have a confidential relationship with a therapist. However, I understand that in very rare circumstances, a court may order the disclosure of my (or my child's) private information. I understand that if I am receiving couple's therapy or family therapy, my therapist does not agree to keep secrets, and any information revealed in any context may be discussed other family members.

Termination of treatment: If I (or my child) am an ongoing client, such as receiving therapy, I understand that if I miss a scheduled appointment, and I do not re-schedule within 60 days, my clinician will understand that as notice that I have voluntarily terminated services and the file will be closed. However, I can have the file re-opened and services resumed by calling the office and scheduling an appointment with my clinician.

Psychotherapy with children: If I am bringing my child for psychotherapy, I agree to allow my child to have some degree of privacy in his or her relationship with the therapist. It is my expectation that I will be made aware of my child's general progress in therapy, but I understand that I will not be informed of specific details of what is discussed in therapy. However, I do expect that the therapist will inform me of any serious health or safety issues of which my child may be at risk, with the understanding that this determination will be made by the therapist.

Fee Structure:

- We accept cash, checks, and credit cards. Payment is due at the time services are delivered, unless alternative payment arrangements have been made in advance.
- There is a 4% convenience fee added if you choose to use a credit card.
- There is a \$25 fee for any returned checks.
- This office will work with you to help determine your insurance eligibility, determine the portion for which you will be responsible, and file for reimbursement. However,
 - The client is responsible for payment of all fees in the event that payment is not received by a third party (including an insurance company).
 - It is the client's responsibility to notify this office if there are additional insurance coverages, or if there are changes to the insurance status, eligibility, or coverage.
- **Psychotherapy:** All therapy services are billed at \$200/hour, including the initial intake and subsequent session. Doing psychotherapy by telephone is not ideal, and I understand that needing to talk to my therapist between sessions may indicate that I need extra support, but I understand that any telephone calls that exceed 10 minutes in duration will be billed at \$10.00 for every 6 minutes.
- **Psychological Evaluations:**
 - The fee for psychological evaluations is \$200 per hour (*), which includes interviewing, records review (if applicable), 3rd party/collateral contact interview (if applicable), testing, scoring, interpretation or tests, and preparation of the written report.
 - (* The fee is \$275/hour for custody-related evaluations.)
 - This includes retroactive billing for any substantial professional time required from the time of the initial referral or inquiry (e.g., phone calls and/or e-mails related to case coordination) prior to the first appointment in the office.
 - Psychological evaluation reports will not be completed and/or released until payment for the evaluation is made in full, regardless of the source of payment. *** If it is anticipated that an insurance company will pay for an evaluation, we will make every reasonable and possible effort to obtain payment from that insurance company. However, a pre-authorization for payment from an insurance company is not a guarantee of payment. ***If the insurance company does not pay for an evaluation for whatever reason, the report will not be completed and/or delivered until the service is paid for by the client.***
 - Feedback: If you have questions that can be answered in a brief e-mail response or brief telephone conversation (less than 10 minutes), this will be provided free of charge. If you desire a feedback session, these are \$200 for a one hour session (*\$275 for custody-related evaluations).
- **NEW: Court and Deposition Testimony:** Depositions and court testimony are \$375/hour, which includes all time required out of the office (i.e., including drive time) and/or time scheduled that the clinician otherwise would not be able to schedule or see clients. All preparatory time needed prior to the date of testimony is billed at \$275/hour, including for example all time needed in reviewing the file, preparation with the attorney, and/or needed communications related to preparation for testimony. I understand that if I request court testimony, I will be advised at that time of additional policies, such as retainer amount needed, minimum billable time that is applied to retainer, cancellations, or potential refunds.
- I understand that the all fees noted above are subject to future increases.
- **Cancellation Policy** - I understand that if I do not show for an appointment, or if I cancel an appointment with less than 24 hours notice, I will be financially responsible for that session. I understand that insurance companies do not reimburse for missed sessions. I further understand that repeated late cancellations or failure to show for scheduled appointments may result in my termination as a client. I

understand that if I do not schedule or attend an appointment within 60 days of my last appointment, that will serve as notice to my clinician that I have voluntarily terminated as a client and the clinician will close the file, although my file could be re-opened in the future should I seek additional services.

- If I have insurance, with my signature below I am giving permission for appropriate charges to be billed to the insurance company. If I choose for my insurance not to be billed, I will discuss that with the provider. Unless other arrangements are made in advance with my clinician, such as payment by an insurance company or payment by any other third party, I understand that I am financially responsible for all services per the above fee structure and policies.

In Case of an Emergency: Atlanta Psychological Services is an outpatient facility. The clinicians at this office do not carry pagers, nor are we available at all times. If at any time this does not feel like sufficient support, please inform us, and we can discuss additional resources or transfer your case to a therapist or clinic with 24-hour availability. Generally, we will return phone calls within 24-48 hours during the work week. If you have a mental health emergency, we encourage you not to wait for a call back, but to do one or more of the following:

- Call Ridgeview Institute at 770-434-4567
- Call Peachford Hospital at 770-454-2302
- Call the Georgia Crisis and Access Line at 1-800-715-4225
- Call 911
- Go to your nearest emergency room.

Professional Relationship: Psychological evaluations and psychotherapy are professional services that will be provided to you. Because of the nature of these services, your relationship with your clinician must remain professional, as there is the potential for harm if your clinician were to interact with you in other, non-professional ways.

Statement Regarding Ethics, Client Welfare & Safety: The services provided to you will be rendered in a professional manner consistent with the ethical standards of the American Psychological Association. If at any time you feel that we are not performing in an ethical or professional manner, please promptly this with your clinician immediately so we can work to resolve your concern.

Psychotherapy Considerations: Due to the very nature of psychotherapy, your therapist cannot guarantee specific results regarding your therapeutic goals. However, with your participation, we will work to achieve the best possible results for you. Please also be aware that changes made in therapy may affect other people in your life. At times people find that they feel somewhat worse when they first start therapy before they begin to feel better. This may occur as you begin discussing certain sensitive areas of your life. However, a topic usually isn't sensitive unless it needs attention. Therefore, discovering the discomfort is actually a success.

Psychological Evaluation Considerations: The goal of a psychological evaluation is generally to answer questions regarding your functioning in a variety of areas, depending on the referral. This may include various issues such as cognitive, academic, neuropsychological, emotional, personality, parental, psychosexual, developmental, and/or social functioning. Psychological evaluation is generally accomplished through in-depth interviews, collection of collateral information, review of records, observation, and administration of standardized and non-standardized testing measures. The results of the assessment include a description of functioning and are usually interpreted and integrated into a psychological report, which reviews the history, provides test data, and provides a detailed analysis of results. Diagnostic impressions are usually offered, as are recommendations for further direction. However, diagnoses are not always clearly defined and may be provisional as symptoms continue to emerge. Psychological evaluation is generally a low-risk process. It is, however, possible that clients may feel some discomfort or anxiety at the prospect of being tested and during the evaluation itself. Additionally, the possibility exists that the clinician's findings, diagnoses, opinions, and recommendations may not necessarily be on par with what you expect or desire, and you may not agree with conclusions drawn. This is especially true for forensic evaluations.

My signature below indicates that I have:

- 1) Read, been advised of, and understand the above information and that I give informed consent for me (or my child) to receive psychological services under these conditions,*
- 2) I understand that I have privacy rights under HIPAA, and I have been provided with the opportunity to review and obtain a copy of the HIPAA Privacy form,*
- 3) I have been provided with the opportunity to review and obtain a copy of the Social Media Policy form.*
