

## ERA OILFIELD SERVICE (THAILAND) CO LTD – FISHING TOOLS

ERA Oilfield Service (Thailand) Co Ltd are a privately owned provider of oilfield and mineral drilling, completion, production, intervention and well construction product lines and services formed in Thailand in 2013.

ERA have satisfied clients across SE Asia, MENA, Africa and South America. ERA provide high quality API FISHING TOOLS sales, service, field installation and training support.

ERA provide a full range of high quality TIANHE HUIFENG fishing tools, manufactured under API licence and ISO process certification to the highest required standards.

With a 10+ year relationship with TIANHA HUIFENG, one of the largest manufacturers in the world, we are able to provide technical and commercial benefits to all of our clients.

### CATCH TOOLS

Our full range of catch tools include over-shots, spears, taps, die collars of all required types and sizes are readily available to meet your project requirements. All are manufactured to API standards.

### IMPACT TOOLS

A full range, in all sizes, of fishing jars, accelerators, safety joints and bumper subs. All manufactured to exceed API requirements.

### MILLS

Junk mills, flat bottom, watermelon, taper, concave, bladed, string, skirted, pilot and bespoke design to manufacture.

### BASKETS AND CATCHERS

Standard junk subs, baskets and reverse circulating junk baskets are within the range across the full scope of standard fishing sizes. All connections as per API specifications.

### MAGNETS

Our range of magnet solutions include surface ditch magnets as well as downhole magnets. The range of downhole magnets includes wireline and tubular deployed tools. Standard fishing magnets, reverse circulation fishing magnets are available.

### CUTTERS AND SECTION MILLS

Key component tools in fishing and retrieval operations we offer a range of internal and external cutters as well as section mills.

Our cutter range includes mechanical internal and external cutters as well as multi-string cutters which will accommodate cutting of large conductor pipe.

The section mill range is tried and tested across the 4 1/2" – 13 3/8" casing range.

### WASHOVER PIPE, SHOES, EXTENSIONS AND PACKER MILLING/ RETRIEVAL

Central to packer milling and retrieval operations we supply wash-over pipe in various sizes complete with mill shoes, drive subs, safety joints, catch spears, mills, extension subs and wash-over pipe extensions to help you complete your packer milling package.

All tools manufactured to API specifications.
