HOWATT Custom Stabilizer

The HOWATT Custom Stabilizer is a precision engineered archery accessory that provides peak stabilizing efficiency. It is a uniquely handsome accessory as well. HOWATT designers have styled the unit to enhance the appearance of your HOWATT bow. The lustre chrome steel shaft is smartly accented with your choice of either exotic Brazilian Rosewood or Bubinga. 21 1/2" length, 8 ounces 17 1/2" length, 7 ounces 12.50 5/16" insert 1.50

HOWATT Stabilizer Flex-Connect

The HOWATT Stabilizer Flex-Connect adds a totally new dimension of performance to your HOWATT Custom Stabilizer. With the Flex-Connect added, the action of the stabilizer following arrow release is infinitely smoother resulting in improved accuracy. Furthermore, there is an additional performance bonus in that both limb shack and stabilizer reaction are cushioned. And like the stabilizer, the HOWATT Flex-Connect is styled with bow-matching Rosewood or Bubinga trim.

9.95

All prices are FOB Yakima, Washington. Specifications and prices are subject to change without notice. Terms are net 30 days, however all orders will be shipped COD unless order is prepaid or open account has been approved by HOWATT. Minimum order is \$5.00.

No returns will be accepted without proper authorization from HOWATT ARCHERY MANUFACTURING CORP. We urge all HOWATT bow owners to use a bow stringer to string their bow. In lieu of that, use a method of stringing that will minimize the twisting of the bow limbs—the cause of most bow breakage.

Fistmele (brace height) is so dependent upon the style of the shooter that it is impractical to specify fistmele measurements for HOWATT bows. HOWATT bows are equipped with strings that will provide proper fistmele in most cases. Because of a particular shooting style, it may be necessary to tighten the string by twisting it to obtain maximum performance.

All HOWATT bows are made of the finest materials available. These exceptional materials together with more than 25 years of bow making experience are combined to produce the world's best performing and most beautiful line of modern bows.

HOWATT GUARANTEE

Each HOWATT bow is fully guaranteed against glass failure or delamination during normal use for one full year and replacement or repairs will be made for 50 per cent of the retail cost during the second year.

IMPORTANT—No adjustment will be made when breakage or failure is due to abuse or mishandling. Otherwise, should failure occur please contact your dealer or DAMON HOWATT ARCHERY MANUFACTURING CORP. for instructions.
