Jim Zura  
Zura Productions  
2043 Round Spring Drive  
Kingwood, Texas 77339

## LETTER OF RECOMMENDATION

To Whom It May Concern:

For more than twenty years, we have regularly hired Jim Zura as an independent contractor to provide corporate video production for safety training videos, on-camera media interview training, and emergency response exercises.

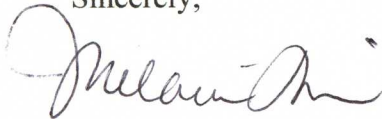

Jim has successfully completed these video projects for dozens of our energy clients, including Apache Corporation, BASF, Celanese, Cobalt, Cyanco International, Dow, ExxonMobil, InCoSiT, Kaneka Texas, Kuraray America, Lubrizol, Noltex, Pacific Drilling, Petrobras America, Rentech Nitrogen, Shell Oil Company, Westlake, and many more.

Jim consistently brings a high level of creativity, experience, and broadcast quality to each project. He uses state-of-the-art non-linear video editing equipment in his Kingwood studio to produce high-definition and standard-definition videos in any format requested by our clients.

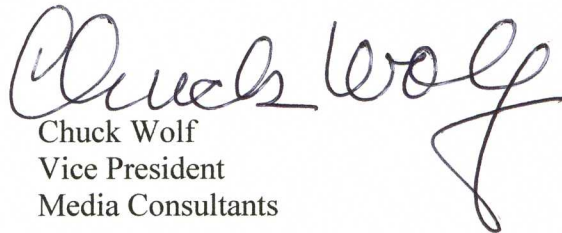

Personally, Jim is always highly professional, yet light-hearted and enjoyable to work with. He has a great ability to interpret our clients' needs (regardless how challenging!) and to deliver each video project on-time and on-budget.

We would certainly recommend Zura Productions to anyone requiring a top-notch Director of Photography and Editor of any corporate video production project. We're sure that Jim will meet or exceed your expectations.

Sincerely,

Melanie Miller  
President  
Media Consultants

Chuck Wolf  
Vice President  
Media Consultants
