JUDO/JIU-JITSU

What is Judo?

Judo is one of the oldest forms of Martial Arts and has been an Olympic sport since 1964. Judo, which derives from jiu-jitsu, rests upon the principal of turning an opponent's strength to one's own advantage and overcoming by skill rather than by strength alone. Judo emphasizes the practice of skill and technique over force.

Dr. Jigoro Kano founded the Kodokan in 1882. A student of Jiu-jitsu, Dr. Kano believed that by adopting superior Jiu-jitsu elements, "maximum efficiency with minimum effort" and "mutual welfare and benefit" could be achieved.

What does Judo mean?

The word judo consists of two Japanese characters, ju, which means "gentle" and do, which means "the way". In simplest terms, Judo means "the way of gentleness". Ju can also mean giving and flexible; a student of Judo does not meet force with force unless it is to their advantage or for a further purpose to do so.

What is Jiu-jitsu?

Jiu-jitsu developed to combat the samurai of feudal Japan as a method for defeating an armed and armored opponent in which one uses no weapon, or only a short weapon. Because striking against an armored opponent proved ineffective, practitioners learned that the most efficient methods for neutralizing an enemy took the form of pins, joint locks, chokehold, and throws. These techniques were developed around the principle of using an attacker's energy against him, rather than directly opposing it.

What does Jiu-jitsu mean?

"Jū" can be translated to mean "gentle, soft, supple, flexible, pliable, or yielding." "Jitsu" can be translated to mean "art" or "technique" and represents manipulating the opponent's force against himself rather than confronting it with one's own force.
