

# Caring for a Loved One with Memory Challenges

**Are you facing the day-to-day challenges of caring for a loved one with memory loss or other dementias, such as Alzheimer's?**

Through interactive classes, family members learn how to immerse themselves in the mindsets of their loved ones to help manage behavioral symptoms frequently associated with the disease.

The dementia curriculum, CARE – Changing Aging through Research and Education has been reviewed by the Alzheimer's Association® and meets the Alzheimer's Association's Dementia Care Practice Recommendations.

***Please join us for a FREE, informative workshop that can help you answer these questions and learn more about:***

- ✓ Facing Memory Challenges, Including Dementias & Alzheimer's
- ✓ Handling Challenging Behaviors
- ✓ Encouraging Active Engagement
- ✓ Capturing Life's Journey<sup>SM</sup>, Recording a Person's Life Stories
- ✓ Prevention Techniques
