CAPTURE

Capture is a novel web-based
Coverage Analysis Preparation Tool.

Capture provides sites with protocol-specific analyses, including CPT codes and guideline information, on your institution's template.

BENEFITS

- Customized to your Institution's Template
- Reduce Time and Frustration
- Standardized Output
- Reduce Cost
- It's Fun!

HOW IT WORKS

- Upload Protocol
- Answer Questions about the Study
- Identify Patient Population
- Add Investigational Products
- Generate Coverage Analysis
