**59.Heavry Hand** mirror 9 x 6 1/2" with beveled mirror. I do not know what it is made of. It looks like a man made product that looks like trees bark. On the back is a small sterling with flower decorated piece 2 x 1". It does say sterling.

**60. Small 2"** statue out of "Wonderstone" Pyrophyllite carving. I sent pictures to Iowa State and the geology department said they did not know the age with out testing it. I looked it up and the only place that has a a large deposit is in North Caroline. The rest is over seas and this stone has been around for over 88,000 years.

**Subject:** carved rock

Hello,

Your email regarding a carved rock was forwarded to me. Your carved rock is most likely the mineral Pyrophyllite, especially since it has a greasy feel. It has a low hardness and is commonly used for carvings.

If you google "Pyrophyllite carving", you'll see many examples!
