

CAMP WIL-LO-LINN SAFETY CHECK LIST

EMERGENCY SIGNAL: 3 SHORT BLASTS / PAUSE / 3 SHORT BLASTS – Evacuate to parking lots in assigned groups. Wait for instructions.

- Anyone with EpiPens or inhalers check in at First Aid every morning.
- NO ONE is allowed near the river. Anyone found there will be immediately sent home.
- Campers are not allowed to travel alone, nor leave their unit without permission from a unit leader. Campers who do not follow this rule may be immediately sent home and/or denied further attendance at camp.
- The smallest group to travel is a truddy – two campers and one adult or CA. At no time should a single camper be with a single adult or CA.
- Walk on the trails and always travel with a buddy, including when travelling with the unit.
- DO NOT drink from the handwash stations.
- Speak only to adults wearing Camp T-shirts OR resources identified by a camp adult or CA (Dance, Archery).
- Stay within the bounds of camp at all times. The “road” in camp is off limits. The wooden barrier is off limits.
- DO NOT share food, sun block or bug spray.
- If lost or separated from your unit, stay where you are, “hug a tree” and listen for calls from camp staff. RESPOND BACK so we can find you!
- If a camper is missing, immediately call the unit together, take attendance and back track as a group to your last location. If the camper is not located call Headquarters (503) 320-1915 to alert staff to start a more extensive search.
- Minor injuries can be tended with the Unit First Aid kit in the unit bin. Anything else, or if in doubt, get treatment from First Aid.
- For all MEDICAL EMERGENCIES CALL First Aid (503) 484-7025 IMMEDIATELY – keep campers calm and report your location to get help.
- If you observe strangers approaching your unit (not just travelling past) or the camp, call Headquarters immediately (503) 320-1915.
- Campers must be under the supervision of at least one adult at all times. Campers in the woods must be under the supervision of a least TWO adults at all times.
- CELL PHONES (adult and CA) are part of our camp communication and emergency system. They should be quiet except for this and emergency use during the hours of camp.
- Treat all camp members – staff, CAs, guests, and campers with respect and kindness...even when you disagree ☺.
