 Standard Fees & Sliding Scale Policy
 Updated 3/2017
 Current Tier Availability: 1,2 & 3

Sliding Scale is defined as a reduced fee for services for clients paying for their sessions out-of-pocket. Fees per service are negotiated on a case-by-case basis during consultation and may be renegotiated at point in treatment by either client or therapist.

The Sliding Scale is broken into three tiers (see chart below) and has a limited number of availabilities. Once a tier is full, it can no longer be offered, unless an opening again becomes available. Availability of a particular tier on the sliding scale cannot be guaranteed. Please contact me directly for what is currently available.

When assigning a Sliding Scale tier both financial need and frequency of sessions are considered (weekly, bi-weekly, bi-monthly). Sliding Scale is not available for those seeking monthly sessions only. Additionally Tier Three of the sliding scale is only reserved for those seeking weekly or bi-weekly sessions.

Individual Sessions (50 minutes):
