ULTRA Video Cabinet

The Ultra Series video component cabinets are attractive and accommodating with their unique metal screen (or fabric) doors and side panels. Large equipment bays are 19" deep to accommodate the largest of components. The center bay of the U-22T is 25" wide to fit center channel speakers and covered with acoustically transparent cloth. The side bays can be fitted with rails for rack mounted equipment. While the Ultra cabinets offer generous passive ventilation, fans are also available for additional cooling. Removable back panels make wiring access a snap. Optional rolling casters make moving the cabinets a breeze. Optional steel mounting pillars allow you to mount TV's and monitors above the unit like you would on a wall. Available in 3 real wood veneer finishes (Rosewood, Black Ash and Espresso) and two fabric colors (Black, White), this cabinet complements any home theater.

U-22T BS Video Cabinet

Shown in Espresso with Black screen

Check this out If you send us your component dimensions, we will cut a custom face plate to cover your equipment exactly for a custom look that is only found on high end custom made furniture. This product is optional and additional fees apply. Call us today for details.

U-60 ES Audio Cabinet

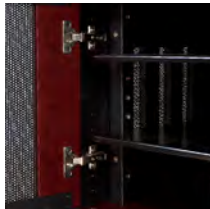

Shown here in Espresso and Black screen

The Ultra U-60 complements the Ultra U-22T video cabinets with storage solely for audio components. This audio component cabinet is attractive, accommodating and full of ventilation. The large equipment bays are 19" deep to accommodate the largest of components. Optional back panel extenders allow for 21" depth. Each bay can be fitted with rails for rack mounted equipment. Elegance meets function with large ventilation slots in the sides of the unit as well as the full metal screen doors for maximum passive ventilation. Removable back panels make wiring access a snap. Optional rolling casters make moving the U-60 a breeze. Available in 3 real wood veneer finishes (Rosewood, Black and Espresso). This cabinet complements any home theater.

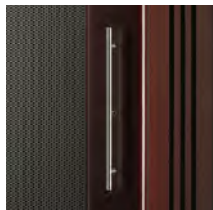

DETAILS

All cabinets come with plastic glides. Rolling casters are optional.

European style hinges.

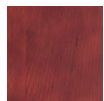

High quality wood veneers and solid steel hardware compliment each other beautifully on the Ultra cabinets.

Metal screen provides ventilation and allows use of infrared remote controls.
