WHAT ELSE CAN I DO TO GET READY?

Prepare an Emergency Bag

Put together a grab it and go bag for the hazards that happen to where you live, work, and go to school. It's important to know what you are able to carry in an emergency without assistance in the event of an evacuation. These items are essential to getting through an emergency. Emergency bags can include but are not limited to: **Personal identification information, health information, contact lists, medications, first aid kit, medical supplies, food, water, flashlight, extra batteries, cell phone chargers, and medical equipment.**

Make a Household Plan

Develop a communication plan with your family and support network. Have emergency contacts easily accessible in the event you are not together. If you have a communication disability, make sure to have emergency information notes on what the best ways are to communicate with you.

Make Plans for Service Animal/Pets

Just as you do with your personal or family's emergency bag, you will want to do the same for your service animal/pets. Bags can include but are not limited to: **Important documents such as registration, vaccinations, and medical records, food for at least 3 days, water, extra leash, and transportable pet kennel.**
