Academic and Extracurricular Highlights:

- 3.90 College GPA
- NYU Robotics Design Team - Manufacturing Sub-Lead
- NYU General Engineering Department - Teach and 11-week curriculum directly to 15 - 20 student class

Quotes:

“The applicant is without a doubt the strongest in her given majors class and never boasts about her high level of intelligence. She instead uses her vast knowledge and understanding to teach others and find resources for them to succeed just as she has. She will do amazing things in the future, and has already proven her keen eye for design and inventiveness. ...It is with my utmost honor to recommend this student for the Anchor Scholarship, as she will make the program proud with her accomplishments and will utilize the money wisely to complete her studies.” **Lauryn Taylor** - Tutor

“In my two short years there I’ve accomplished so much more than I could’ve ever imagined myself capable of in high school and I’ll be one of the lucky few who will be able to continue to do so through the irreplaceable support of the Anchor Scholarship Foundation and its donors. ... Your commitment to support the Anchor Foundation has given me the opportunity to diminish a significant source of my own stress and I am so exceptionally grateful for this.” **Mary**
