New Beginning uses Edenfresh, as our Health and Beauty Products. All the Edenfresh product are free of animal or pork ingredients. This allows the cleaning process to take place uninterrupted. Also, being knowledgeable of the damage from animal and pork oils increases ones ability and desire to use these products for correct and healthy personal care.

So, the use of these products removes the dirt and heavy oils that saturate the pores of our skin, which can trap toxic substances that produce allergies and unwanted appearances. The healing of the skin's natural beauty is aided with the natural healer of aloe vera in the lotion and body oils products. The products are lightly and naturally scented to reduce allergy potentials. All ingredients are clearly marked on the products to prevent any unnecessary allergic reactions.

New Beginning also, incorporates Essential oils, unscented lotion and/or cream to complete your personal care needs. The essential oils are alcohol free and can be added to our unscented lotion, cream, bath crystal, and body wash for a delightful and awesome feeling.
