Performance By...

G93H90 excels in drought-prone, coarse textured soils. G93H90 is a semi-flex ear so it at lower than grower standard populations (28,000-31,000 plants/a). G93H90 performs best on rotated acres.

Only those labeled EZ7 may be sprayed with glufosinate ammonium based herbicides, including Liberty® herbicide. HERCULEX® and the HERCULEX Shields are trademarks of Dow AgroSciences, LLC. HERCULEX Insect Protection technology by Dow AgroSciences. Some versions of this product family may not contain the listed traits.

1-9 Scale: 1 = Best, Tallest or Highest; 9 = Worst, Shortest or Lowest; (-) = Not Available, NA = Not Applicable.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
