#### INTRODUCTION

Underage and binge drinking have become serious public health and safety concerns in every community in Wyoming - as they have throughout the rest of the country. Youth are beginning to drink at an earlier age and they are drinking greater quantities than ever before. The increasing risk to Wyoming youth and communities prompted the Wyoming Association of Sheriffs and Chiefs of Police to begin collecting youth and alcohol-related data to develop more effective long-term strategies for law enforcement agencies and underage drinking prevention coalitions in Wyoming.

This data collection effort has been funded primarily with the use of federal grant funds provided by the Wyoming Department of Health. The grant funds received from the Wyoming Department of Health originally came from the United States Department of Justice - Office of Juvenile Justice and Delinquency Prevention as part of an existing national grant program entitled Enforcing Underage Drinking Laws. These federal grant funds were provided to the state of Wyoming since 1998 and were administered by the Wyoming Department of Health - Mental Health and Substance Abuse Services Division. The OJJDP EUDL funding came to an end during 2013. The Wyoming Department of Health now provides grant funding to continue EUDL activities through a Substance Abuse and Mental Health Services Administration (SAMHSA) program entitled Strategic Prevention Framework Partnerships for Success.

Unlike other national prevention grant programs, these funds are specifically intended to be used for law enforcement initiatives which

focus on effective enforcement of underage drinking laws. Due to the law enforcement focus of these federal grant funds, the Division began contracting with the Wyoming Association of Sheriffs and Chiefs of Police in 2006 to administer the grant process and to direct the efforts of the law enforcement agencies that apply for grant funding.

In 2007, the Association decided to take a more strategic approach in the administration of these federal grant funds by implementing a statewide initiative that would involve multiple law enforcement agencies in a more directed manner. The Wyoming Communities in Action initiative was designed to recruit and involve more law enforcement agencies in efforts to reduce underage drinking in their communities. The initiative was also intended to be the means by which more effective strategies could be devised, implemented and evaluated – strategies which could then be shared, replicated and used by other agencies in the state.

An integral phase of this initiative involved devising a data collection process that would provide more complete, detailed information relative to incidents where law enforcement comes in contact with youth who are in possession of, or who have been drinking alcohol.

The process of identifying and selecting the data fields which would be useful for strategy development and evaluation purposes was a critical first step. Demographic information, location of law enforcement contact, time of day, arrests versus citations, blood alcohol concentration levels and determining the source

of the alcohol were all selected and included in the data collection process employed by all participating agencies.

The data is collected daily, then tabulated and uploaded monthly to an online project management site. This information is then added to a master database and monthly reports are created for every grant agency — as well as included in an aggregated year-end report for all communities.

This report is comprised of data collected by twenty-two law enforcement agencies in Wyoming that participated in the grant-funded program during calendar year 2019. Five counties, sixteen municipalities and the University of Wyoming now have a baseline of data relative to youth involvement with alcohol which can be used to assess and compare enforcement efforts and underage drinking prevention initiatives.

This report is divided into three sections. The first section entitled COLLECTIVE COMMUNITY DATA provides aggregated alcohol-related statistics involving youth which was submitted by the twenty-two agencies that participated in 2019.

The second section entitled INDIVIDUAL COMMUNITY DATA provides statistics for the following twenty-two agencies that participated in 2019: Casper, Big Horn County, Cheyenne, Douglas, Evanston, Gillette, Guernsey, Hanna, Jackson, Lander, Laramie, Laramie County, Lincoln County, Moorcroft, Powell, Rawlins, Rock Springs, Sheridan, Teton County, Torrington, Uinta County and the University of Wyoming.

The third section entitled TRENDS ANALYSIS: 2015 – 2019 provides a five-year analysis of the fifteen agencies that submitted data in each of those five years.

#### **COLLECTIVE COMMUNITY DATA**

Although this report presents data from only twenty-two communities or counties in the state, these communities comprise more than half of the state's population. The community statistics, when aggregated, provides detailed information relative to Wyoming incidents in which law enforcement officers encountered youth who were in possession of, or who had been drinking alcohol.

The data in this report was collected during a twelve-month period (January 1, 2019 through December 31, 2019).

The statistics contained in this report provide a better understanding of alcohol use by youth in Wyoming than has been available before. Specific data regarding age, gender, time of day, charges, whether arrested or cited and released, location of offense and where the minor obtained alcohol is in this section of the report - information useful for prevention efforts, manpower deployment and strategy development.

An assortment of charts and graphs of aggregated data collected in the twenty-one communities are included in this report. Highlighted below are some significant, useful statistics:
