Raphael Louis

Leader & President at The National Coalition Party of Canada (NCPC)

Ashton, Ontario, Canada

Summary

The emergence of a Popular Nationalism Political Movement is taking place in Canada under the leadership of Raphael Louis, Founder of the National Coalition Party of Canada (NCPC). Raphael believes that most Canadians who are in the slightest degree politically active are inclined to hold one of the two chief political positions common in this country, what we call conservatism or liberalism, thus politically, Canadians are highly divided. Raphael political vision when it comes to issues of finance, immigration, national security, diplomacy, human rights, international trade, foreign direct investment (FDI) and environmental protection, is that government must represent Canadian interests first.

Raphael is also the Founder, Chairman, President & Chief Executive Officer (CEO) of The Federal Association for the Advancement of Visible Minorities (FAAVM), whereas a NFP Corporation including activities such as the FAAVM Socio Economic Development Council (SEDC), which plays a vital portion in the overall mission realization of the organization.

Raphael also participated as a Candidate for the electoral riding of Nepean in the Ontario general election of 2018, which was held on June 7, 2018, to elect the 124 members of the 42nd Parliament of Ontario. His electoral campaign was mainly based on the facts that Ontarians have a chance to finally put an end to corporate partisanship government, given the present condition of our economy, healthcare, and high hydro costs. Raphael believes that these situations should get better in time.

KoC
Worthy Sir Knight
May 2013 - Present (7 years 1 month)
British Columbia, Canada

The Patriotic Degree allows K of C members to take this one step further. "Sir Knight" is more than a title, it's an honor. Each 'degree' of the Knights of Columbus is associated with a particular virtue, the fourth being "Patriotism". Consequently, the 4th Degree is often known as 'The Patriotic Degree'.

It was established in New York on 22 February, 1900. The requirements for joining the 4th are that a brother Knight must have been a third degree

member in good standing for at least one year, be an exemplary Catholic, and be of sound citizenship of his country.

The Fourth Degree is frequently regarded as an honorary title with its regalia of tuxedos, capes, chapeaux and swords but should rather be thought of in terms of service to church and country, and the goals of the Fourth Degree may be summarised as the promotion of the ideals of Catholicism and Patriotism side by side.

Therefore, it is not unusual to find Fourth Degree Knights participating visibly in church events, such as Eucharistic processions, and others, and in the community, standing up for the unborn and the elderly at Pro-Life events, and commemorating the sacrifices of previous generations on Remembrance Day.

Founder

2002 - Present (18 years)

The FAAVM Canada is a nonprofit, charitable organization. Our major focus involves using various multifunctional civil rights programmes to help our mostly disadvantaged, underprivileged Canadian minorities as men, women and children. Via the FAAVM multilateral humanitarian systems, and activities, we're able to reach out to these people who are very difficult to reach via more traditional-type programmes. We then use these activities to help improve the quality of life of these disadvantaged peoples, also called the visible minorities.

A major objective is our use of national and international legally binding humanitarian instruments, norms, precepts and principles in order to intervene

at the national level to outreach visible minorities who are often very difficult to otherwise reach. We are then able to impact Canadian minorities in many positive ways. We promote early education, child welfare, gender equality, social justice, global peace and socio economic development, and promote the overall growth and advancement process.

To reduce poverty and encourage economic growth within visible minorities. The debate on globalization and the fights against racism and discrimination only serve to increase awareness about how much is at stake in social development. Our goals are ambitious: to improve the quality of life and extend economic benefits and empowerment broadly throughout civil societies and minority communities. Now we are seeking a growing consensus from both governments and wealthier communities across the country and a renewed commitment on the part of national and international civil communities and governments to collaborate and harmonize the many efforts under way.
