

KEYSTONE STATE TITLEHOLDERS

May 31, 2016

KEYSTONE TAP, L & N TAP, & RACK'EM UP TAP PA Players;

We are very aware of the situation that happened over the weekend at the Lancaster Host. In fact, the details as of this morning are, Lancaster Host Saturday night had a 4" water pipe break, causing water damage on three floors. Effecting the penthouse floor, the area beside the registration desk/kid zone and the lower lobby area to the ballroom/meeting space. Of course, they had to shut down and evacuate their facility, as any facility would have to do. Until clean up and repairs can be done and their inspections/certifications are all done, they will be closed. As of today, they are hoping that can all be completed this week, but again, this all depends on how soon they can get the final inspections done.

The new ownership and management staff at the Lancaster Host obviously are making this their top priority.

How does that effect our titleholders event? 1st and foremost I am awaiting to hear if we can use the Expo Center, since it is a separate building from the main hotel. If we can, we are going to have the tournaments there and address the food, beverage and room stays next. As soon as Lancaster Host management confirm for me, this week, that the Expo Center can be used for our tournament, I will advise you all. If not, obviously we will have to move the tournament, which may have to break down into three smaller tournaments, BUT first things first and that is a verification from the hotel to me on the Expo Center.

I need everyone to be patient, and to refrain from contacting the Lancaster Host. If hotel stays cannot happen obviously I will have the entire block cancelled, but that call cannot be made as of yet.

Please refrain from the Facebook posts, Emails, Texts and Calls to our offices. Again, as I find out you all will be the second to find out.

I have advised Lancaster Host that I need an answer on the Expo Center this week, and I will do what I need to do from there in order to have titleholders, but this is not going to be quick and easy. So please, hold tight, and have faith that I have always delivered this event to you and will continue to. There are many details that need addressed. Thank you for your support and cooperation during this time.

Kelly A. Nace, Keystone TAP, LLC Owner/Operator – Keystone State Titleholders Organizer
