

Aim: Is the creation of a United States of Europe possible?

I. The European Union

- Is an intergovernmental and supranational union of 25 democratic countries
- Established in 1992
- A common single market
- A single currency (the euro)
- A common trade policy
- A Common Foreign and Security Policy
- Set up internal borders which allows mobility for European Union citizens

II. European Common Market

- Designed to help the economy of Europe
- Prevent future war by integrating its members together

III. The European Parliament

- Elected officials that represents the interests of the citizens
- Elections are held every five years
- Every European Union citizen is entitled to vote
- The Parliament governs more than 455 million people
