

3. Lu Corts Winter Solstice Supply List

-Winter Solstice pattern by Patti Carey

-Decide which size you want to make and get fabric requirements as listed on pattern for that size.

You will need 12 fabrics going from light to dark. Don't be afraid to use fabrics other than stonehenge that the pattern asks for, as Lu did. Just go from light to dark, and throw in different designs, even colors if you wish. You can make it a monochrome as the pattern cover is or think mountains and forest colors to make it all your own.

-Sewing machine in good working order

-Neutral thread

-Rotary Cutter and Quilter's Ruler

Before class, cut according to pattern instructions for size you are making. I recommend you place the cut pieces in a baggie and mark what # fabric they are.
